

NOTICES

IUPAC Commission on Electrochemistry

Proposed Nomenclature for Transport Phenomena in Electrolytic Systems (PNA 59) and Electrode Reaction Orders, Transfer Coefficients and Rate Constants – Amplification of Definitions and Recommendations for Publication of Parameters (PNA 60).

These Provisional Nomenclature appendices have now been published. Comments on their provisional recommendations will be taken into consideration before a definitive version is published. They may be obtained, free of charge, from the IUPAC Secretariat, Bank Court Chambers, 2–3, Pound Way, Cowley Centre, Oxford OX4 3YF, UK.

European Symposium on Electric Phenomena in Polymer Science

The symposium will be held in Pisa, Italy from March 29–31, 1978 when a limited number of invited lectures and short communications will be given on the following topics: electrochemistry

of ionic polymerization and related reactions; electrochemical polymerizations; and electric properties of polymeric materials.

Further details are available from
Professor P. Giusti,
Istituto di Chimica Industriale ed Applicata,
Facoltà di Ingegneria,
Via Diotallevi, 2, I-56100 Pisa, Italy.

Electrochemical Process Engineering

A short course on Electrochemical Process Engineering will be held in the Department of Chemical Engineering, University of Newcastle-upon-Tyne from July 9–14, 1978.

Further details are available from
Dr. K. Lister,
Department of Chemical Engineering,
University of Newcastle-upon-Tyne,
Merz Court,
Claremont Road,
Newcastle-upon-Tyne,
NE1 7RU,
UK.
