

NOTICES

The Fourth Euchem Conference on Organic and Organometallic Electrochemistry

This conference will be held at the Hôtel Comtat, Lioujas, near Rodez, Aveyron, France, on 19–23 May 1980. The topics covered will include: organic electrosynthesis, organometallics in electro-synthesis and the use of these last compounds as intermediates in organic electrosynthesis.

Further details may be obtained from:
Professor G. Canquis,
Centre d'Etudes Nucléaires de Grenoble,
Avenue des Martyrs,
38 Grenoble,
France.

5th Australian Electrochemistry Conference

This conference will be held at the University of Western Australia, Perth, Western Australia, on 18–22 August 1980.

Further details may be obtained from:
Associate Professor I. M. Ritchie,
Department of Physical and Inorganic
Chemistry,
University of Western Australia,
Nedlands 6009,
Australia.

J. Heyrovský Memorial Congress on Polarography

This conference will be held in Prague, Czechoslovakia, on 25–29 August 1980 (not 18–22 August as previously announced) to celebrate the 90th anniversary of the birth of Professor Jaroslav Heyrovský, Nobel laureate, and the 30th anniversary of the foundation of the Polarographic Institute. The aim of the Congress is to survey the present state of polarography and related methods in the fields of basic research, contemporary instrumental techniques, analytical chemistry and applications in industry, biology, medicine and environmental science.

Further details may be obtained from:
The Secretariat of the J. Heyrovský Memorial
Congress,
Vlašská 9,
118 40 Praha 1 – Malá Strana,
Czechoslovakia.

12th International Power Sources Symposium

This conference will be held at the Hotel Metro-pole, Brighton, England, on 15–18 September 1980. Papers are invited on topics related to research, development and use of power sources, i.e. primary, secondary and reserve battery systems, fuel cells, solar cells, thermo-electric and thermionic generators, etc.

Further details may be obtained from:
Dr J. Thompson,
International Power Sources Symposium
Committee,
PO Box 17,
Leatherhead,
Surrey KT22 9QB,
England.

Fundamentals of Electroplating and Metal Finishing

This two-day residential conference will be held at Loughborough University of Technology on 23–24 September 1980. Papers and reviews of the following subjects will be included: cathodic processes, related anodic processes, electrophoresis, electroless deposition, anodizing, and conversion coatings.

Further details may be obtained from:
Dr N. A. Hampson (Department of Chemistry)
or Dr D. R. Gabe (Department of Materials
Engineering and Design)
University of Technology
Loughborough
Leicestershire LE11 3TU
England
