

## NOTICE

### *Electrolytic processes*

Abstracts of papers for the technical sessions at the 1982 AIME annual meeting in Dallas, USA (14–18 February 1982) are required by 1 August 1981. The technical sessions are being sponsored by the TMS-AIME Electrolytic Processes Committee and the planned sessions and session chairmen are as follows:

### *Metal winning and removal from dilute solution*

R. G. Bautista, Department of Chemical Engineering, Iowa State University, Ames, Iowa 50011, USA

### *Electrowinning and electrorefining from aqueous chloride*

P. D. Parker, AMAX Base Metals R and D, Inc., 400 Middlesex Avenue, Carteret, New Jersey 07008, USA

### *General session*

W. William Harvey, 4 Old Colony Lane, Arlington, Massachusetts, 02174, USA

For information about the sessions, please contact the relevant chairman. A call for papers was made in the May issue of *Journal of Metals*.
