The versions of Equations 7 and 9 on page 542 are incorrect and should be substituted by the versions given below:

$$\frac{1}{C_L \theta} = \frac{2^2 F^2}{RT} \frac{A^0}{C_L^0} \overset{k}{\leftrightarrow} C_{S_2 O_4^{2-}}^{\alpha} \tag{7}$$

and

$$\frac{1}{C_L \theta} = B C_{SO_2}^{2\alpha} \tag{9}$$

The relation

$$\eta_c = \eta_0 \frac{i_1(Mn^{+2})}{i}$$

on page 119 is incorrect and should be substituted by

$$\eta_c = \eta_0 + \frac{i_1(Mn^{+2})}{i} \quad .$$
