

CONTENTS OF NEXT ISSUE

PMM Vol.22, No.2, 1958

- G.K. POZHARITSKII: On the construction of Liapunov functions from integrals of the equations of disturbed motion
- B.S. RASUMIKHIN: Stability in first approximation of delayed systems
- Ia.N. ROITENBERG: On a method of constructing Liapunov functions for linear systems with variable coefficients
- K. MAGNUS: On the stability of motion of a heavy symmetrical gyroscope in a Cardan suspension
- S.S. GRIGORIAN: Cauchy's problem and the problem of a piston for homogeneous, unsteady gas flows (self-similar motions)
- Iu. Ia. POGODIN, V.A. SUCHKOV and N.N. IANENKO: On propagated waves of the equations of gas dynamics
- Ia.Z. KLEIMAN: On the propagation of strong shocks in a multi-component medium
- O.M. BELOTSERVKOVSKII: Flow past a symmetric profile with a detached shock wave
- M.V. TRET'IAKOV: On the flow past permeable contours
- S.A. AMBARTSUMIAN: On a general theory of anisotropic shells
- K.F. CHERNYKH: On a variational principle of the complex theory of shells
- S.V. ZHAK: On the stability of some special cases of motion of a symmetric gyroscope, containing liquid masses
- A.P. PROSKURIAKOV: A study of the stability of solutions of a linear differential equation of second order with periodic coefficient
- L.S. IVANOVA: On the impact of a liquid on an inclined wall of an infinitely long, partially covered container
- M.D. KHASKIND: Oscillations of a grid(cascade) of thin profiles in incompressible flow
- O.S. RYZHOV: Some degenerate transonic flows
- V.P. KOROBEINIKOV and E.V. KIAZANOV: Construction of exact discontinuous solutions of the equations of one-dimensional gas dynamics and their applications
- Iu.D. SHMYGLEVSKII: On supersonic profiles of minimum drag

A.Sh. DORFMAN, N.I. POL'SKI and P.N. ROMANENKO: Self-similar solutions of the equations of a laminar boundary layer in a compressible fluid with heat transfer

I.M. BELEN'KII: Quasi-stationary flow of a gas from a cylindrical container of variable volume

M.M. FARZETDINOV: On the uniqueness of solutions of the equations of weak stationary heat convection

This contents list was translated before the complete translations of the articles were available, and the titles may be subject to slight variation before publication.

EDITORIAL NOTICE

To assist readers, reprints of any article appearing in Applied Mathematics and Mechanics can be obtained on application at a price of \$2.00 (10s.) per reprint, to cover the overhead costs involved in production. The Reprint No. of each article (which appears on the foot of the first page of the article) must be quoted on every order. Orders should be accompanied by the correct remittance.

All orders for reprints of Russian articles should be addressed to the Administrative Secretary of the Pergamon Institute at either 122 East 55th Street, New York 22, or 4 Fitzroy Square, London, W.1, whichever is more convenient.
