

CONTENTS OF NEXT ISSUE

PMM Vol.23, No.5, 1959

- A. Iu. ISHLINSKII: On the equations of the precessional theory of gyroscopes in the form of equations of motion of the pole in the phase plane
- V. N. KOSHLIAKOV: On the theory of gyrocompasses
- N. P. ERUGIN: On the stability of solutions of a system of linear homogeneous differential equations with periodic (and other) coefficients
- E. A. BARBASHIN and V. A. TABUEVA: On the condition of existence of limit cycles
- S. N. SHIMANOV: On the theory of vibrations of quasi-linear systems with lag
- O. I. KOMARNITSKAIA: Application of the theory of residues to the reduction of the equations of automatic control systems to canonical variables.
- A. P. PROSKURIAKOV: Vibrations of quasi-linear non-autonomous systems with one degree of freedom close to resonance
- N. N. MOISEEV: On the theory of vibrations of elastic bodies possessing fluid cavities
- B. I. RABINOVICH: On small harmonic vibrations of a cylindrical shell, placed in a supersonic ideal gas flow along its axis
- I. I. VOROVICH: The statistical method in the theory of stability of shells
- G. I. BARENBLATT: On equilibrated cracks formed in brittle fracture. Stability of isolated cracks. Connection with energetic theories
- N. Kh. ARUTIUNIAN: The plane contact problem of the theory of creep
- A. I. SAFRONCHIK: Non-steady flow of visco-plastic material between parallel walls
- G. L. GRODZOVSKII and N. L. KRASHENINNIKOVA: Selfsimilar motions of a gas with shock waves, propagating with a power law through a gas at rest

- A.F. SIDOROV: On non-stationary potential motions of a polytropic gas with a degenerate hodograph
- V.I. TROSHIN: Flow of a gas moving in a channel through an opening in a wall
- S.A. REGIRER: On the thermal effect in the flow of an electricity conducting fluid between parallel walls
- S.S. GRIGORIAN: An approximate solution of the problems of discontinuous flow past an axially symmetric body
- D.V. SHARIKADZE: A class of exact solutions of the equations of magnetogasdynamics
- V.G. PRIAZHYNKAIA: On the problem of plane unsteady motion of ground water
- A.A. BOGOIAVLENSKII: A particular solution of the problem of motion of a gyroscope on gimbals
- Ia.N. ROITENBERG: On accelerated placing of a gyroscopic compass in a meridian
- V.S. NOVOSELOV: Motion of stabilized gyroscopic systems on a moving support
- V.V. KREMENTULO: Investigation of the stability of a gyroscope, taking account of dry friction on the axis of the inner gimbal ring
- CHZHAN SY-IN: On the theory of quality of non-linear control systems
- S.V. KALININ: On the stability of periodic motions in the case of two zero roots
- M.I. ROZOVSKII: Some properties of special operators applicable in the theory of creep
- L.M. KURSHIN: Mixed boundary value problem of the theory of elasticity for a quadrangle
- M.V. DUBINKIN: On wave propagation in infinite plates
- D.D. IVLEV: On the determination of displacement in the problem of L.A. Galin
- V.I. MOSSAKOVSKII: On rolling of elastic cylinders
- E.I. ANDRIANKIN: Propagation of a thermal wave from the boundary of two media
