

CONTENTS OF NEXT ISSUE

PMM Vol.24, No.2, 1960

On the 90th anniversary of the birth of V.I. Lenin

V.V. SYCHEV: Three-dimensional hypersonic gas flow past thin bodies with large angles of attack

N.N. KOCHINA and N S. MEL'NIKOVA: On the piston motion in an ideal gas

R.M. ZAIDEL': Shock wave from a slightly curved piston

Iu.S. ZAV'IALOV: Approximate method of solution of problems of plane vortex motion of a gas

Iu.A. DEMIANOV and V.N. SHMANENKOV: On the study of reverse flows in the region of detachment of a turbulent boundary layer

B.N. RUMIANTSEV: On waves produced by a shock wave on the surface of an incompressible fluid.

L.A. DIKII: On stability of plane parallel flows of a non-homogeneous fluid

N.A. KUDRIAVTSEVA: Horizontal impact of a floating ellipse on an incompressible fluid

M.D. KHASKIND: Thermal waves in soil beneath the insulation of refrigerators

N.N. KRASOVSKII: On an approximate determination of optimum control by a direct method

F.M. KIRILLOVA: On a limiting process in the solution of a problem of optimum control

M.A. AIZERMAN and F.R. GANTMAKHER: On the stability of the positions of equilibrium in discontinuous systems

Iu.A. ARKHANGEL'SKII: On the stability of motion of a heavy rigid body about a fixed point in a particular case

Iu.A. GORELOV: On two classes of plane extremal motions of a rocket in vacuo

Ia.N. ROITENBERG: On the theory of impulsive follow-up systems

- G.I. BARENBLATT:** On the conditions of boundedness in mechanics of continuous media. Static problems of the theory of elasticity
- V.M. ALEKSANDROV and I.I. VOROVICH:** On the effect of a die on an elastic layer of finite thickness
- V.S. GUBENKO and V.I. MOSSAKOVSKII:** Pressure of an axially symmetric annular die on an elastic half-space
- B.L. ABRAMIAN and A.A. BABLOIAN:** Torsion of circular shafts having longitudinal notches or dents and a centrally located cavity
- S.A. AMBARTSUMIAN:** On the theory of bending of anisotropic plates and shallow shells
- V.V. BOLOTIN:** Equations of nonstationary temperature fields in thin shells in the presence of heat sources
- V.I. ROZENBLIUM:** On the plasticity condition for thin-walled shells
- V.L. DOBROVOL'SKII:** The problem of plane deformation of an ideally plastic body in terms of complex variables
- M.N. KOGAN:** On uniqueness of quasi-hyperbolic flows of magnetohydrodynamics
- O.S. RYZHOV:** On the passage from subsonic velocities to supersonic velocities in Laval nozzles
- O.N. OVCHINNIKOV:** Longitudinal non-homogeneous flow past a cylinder in the presence of steady suction of the boundary layer
- F.I. FRANKL:** Approximate analysis of streamline potential flow of a fluid, propagating on the surface of a rigid body as a thin layer
- Iu.P. IVANILOV:** On the stability of plane parallel flow of a viscous fluid over an inclined plane
- I.B. CHEKMAREV:** One-dimensional flow of a compressible gas with a finite conductivity in the presence of a transverse magnetic field
- S.A. REGIRER:** On an exact solution of the equations of magnetohydrodynamics
- R.P. POPLAVSKII:** On an improvement of convergence of the Fourier method
- A.L. KUDRIAVTSEV:** On the possibility of application of electronic digital computers in one of the approximate methods of obtaining conformal mapping
- Errata for previous issues**
