

CONTENTS OF NEXT ISSUE

PMM Vol. 24, No. 4, 1960

- K.G. VALEEV:** On the solution and the characteristic indices of solutions of certain systems of linear differential equations with periodic coefficients
- V.V. RUMIANTSEV:** On the stability of rotation of a top with a cavity, filled with a viscous fluid
- M.A. GOL'DSHTIK:** A paradoxical solution of the Navier-Stokes equations
- A.M. TER-KRIKOROV:** Existence of periodic waves, degenerating into a solitary one
- L.G. LOITSIANSKII:** Heat transfer in turbulent motion
- Iu.A. DEM'IANOV:** Boundary layer on a plate with a time-dependent surface temperature
- S.S. GRIGORIAN:** On certain special problems of thermodynamics of continuous media
- A.A. IL'IUSHIN:** On the increase of plastic deformation and the yield surface
- G.I. BARENBLATT and G.P. CHEREPANOV:** On the wedging of brittle bodies
- V.A. PUPYREV and Ia.S. UFLIAND:** Some contact problems for the elastic layer
- V.M. MEN'SHIKOV:** On an approximate method of analysis of circular cylindrical shells
- L.I. BALABUKH and L.A. SHAPOVALOV:** On variational equations of thermoelasticity
- D.D. IVLEV:** On the theory of plane deformation of a hardening plastic material
- N.N. MOISEEV:** Theorem of existence and nonuniqueness of vortex waves of periodic type
- I.G. FILIPPOV:** Limiting solitary wave for motion of a vortex below the surface of a heavy liquid

- K.A. BEZHANOV: On the theory of diffraction of shock waves
- K.B. PAVLOV and Iu.A. TARASOV: On the stability of flow of a viscous conducting fluid between parallel planes in a perpendicular magnetic field
- E.F. ARANAS'EV: On reflection of sound waves from a plane with a moving part in the shape of a cylindrical piston
- V.A. VUIICHICH: Some integrals of the equations of motion of a dynamically variable point
- A.P. PROSKURIAKOV: On a property of periodic solutions of quasilinear autonomous systems with several degrees of freedom
- M.Z. KOLOVSKII: On the conditions of existence of periodic solutions of a system of differential equations with discontinuous right-hand sides containing a small parameter
- E.N. ROZENVASSER: A remark on a method of constructing Liapunov's function
- N.V. KRIUCHKOV: Study of a singularity of nonlinear equations of control systems in the case of multiple roots with an application of the theory of matrices
- N.K. KULIKOV: Approximate solution of linear differential equations of second order with variable coefficients
- V.N. SKIMEL': On the stability of stationary motions of a gyroscopic frame
- Ia.L. LUNTS: On the instability of the figure axis of a gyroscope
- Ia.N. ROITENBERG: On the theory of direct gyroscopic stabilizers
- D.M. KLIMOV: On the motion of an astatic gyroscope on gimbals with dry friction
