

## CONTENTS OF NEXT ISSUE

PMM Vol.28, № 4, 1964

- N.A. ROSTOVTSEV:** On the theory of elasticity of a nonhomogeneous medium
- I.A. KUNIN:** Internal stresses in an anisotropic elastic medium
- B.L. ABRAMIAN, N.Kh. ARUTIUNIAN and A.A. BABLOIAN:** On two contact problems for an elastic sphere
- G.I. BARENBLATT:** On some general concepts of the mathematical theory of brittle fracture
- B.V. KOSTROV:** Axisymmetric problem of propagation of a cleavage crack
- Iu.I. SIROTIN:** Tensor functions of polar and axial vectors compatible with texture symmetry
- G.M. BAM-ZELIKOVICH:** Solution of some problems of one-dimensional unsteady motion of a conducting gas under the action of strong electromagnetic fields
- E.G. SAKHNOVSKII:** Unsteady plane-parallel flow of a partially ionized gas in a strong magnetic field
- M.I. SHLIOMIS:** On oscillatory convective instability of a conducting fluid in a magnetic field
- W.D. HAYES:** Vortex motion of an inviscid fluid in the vicinity of the critical point
- Iu.B. PONOMARENKO:** On a type of stationary motion in hydrodynamics
- N.N. KOCHINA:** On a solution of the nonlinear diffusion equation
- V.N. KOSHLIAKOV:** On Geckeler's equations in the theory of gyrocompasses
- N.N. KRASOVSKII:** On approximation of a problem of analytical design of controls in a lagging system
- B.A. SMOL'NIKOV:** Optimum braking regimes of rotational motion of a symmetric body
- F.L. CHERNOUS'KO:** On the motion of a solid body with a cavity containing an ideal fluid and an air bubble
- V.V. RUMIANTSEV:** On stability of motion of a solid body with a fluid possessing surface tension
- A.A. PETROV:** Variational formulation of the problem of motion of a fluid in a container of finite dimensions

- Iu. ARKHANGEL'SKII: On the motion of a disk in a Newtonian force field
- E.A. BARBASHIN and E.I. GERASHCHENKO: On stabilization of control systems
- A.P. PROSKURIAKOV: Comparison of periodic solutions of quasi-linear systems constructed by the method of Poincaré and by the method of Krylov-Bogoliubov
- O.M. KISELEV: Solution of the problem of a vortex in a heavy fluid of finite mass
- A.I. GOLUBINSKII: Flow of a shock wave past a wedge moving with supersonic speed
- V.A. MEDVEDEV: On the application of the Bubnov-Galerkin method in the theory of hydrodynamic stability
- V.M. GUR'LANOV: On the relation between the Runge-Kutta method and the method of Picard
- R.N. KAUFMAN: Compression of an elastic sphere with a nonconcentric spherical cavity
- R.L. SALGANIK: On estimation of error committed in passing from the exact equations of the theory of elasticity to the equations of the plane state of stress
- G.I. BYKOVTSSEV, V.V. DUDUKALENKO and D.D. IVLEV: On loading functions of an anisotropic strain-hardening plastic material
- V.B. PORUCHIKOV: Impact of a disk on the surface of an ideal compressible liquid
