

CONTENTS OF NEXT ISSUE

PMM Vol.28, № 6, 1964

- T.K. SIRAZETDINOV: On the stability of random processes with distributed parameters
- L.M. ALEKSEEVA and L.S. SOLOV'EV: Current vortices and critical surfaces in magnetohydrodynamic flows
- O.S. RYZHOV and G.M. SHEFTER: On the effect of viscosity and thermal conductivity on the structure of compressible flows
- B.M. BULAKH: On the theory of hypersonic flow of a viscous gas past a blunt body
- A.A. BABLOIAN: Solutions of certain dual integral equations
- L.S. SRUBSHCHIK: Circular plates under the action of discontinuous loadings
- V.V. PONIATOVSKII: On the theory of bending of anisotropic plates
- Iu.N. RABOTNOV: Axisymmetrical creep problems of circular cylindrical shells
- G.I. PARENBLATT: On the extension of the neck of polymer specimens under tension
- V.I. MOSSAKOVSKII and M.T. RYBKA: Generalization of the Griffith-Sneddon criterion for the case of a nonhomogeneous body
- S.S. GRIGORIAN: On the solution of the problem of underground explosion in soft soils
- A.F. FILIPPOV: Exact expressions for a multiply diffracted wave with a circular front
- B.V. KOSTROV: Diffraction of an elastic plane wave on a massive strip, welded into an infinite elastic medium
- N.Kh. ARUTIUNIAN and B.L. AERAMIAN: On the indentation of a rigid die into an elastic sphere
- A.I. KALANDIYA: On the solution of the equilibrium problem for an elastic half ring
- S.G. LEKHNITSKII: Torsion of an anisotropic body of revolution with variable moduli of elasticity
- V.A. PAL'MOV: Plane problem of the theory of asymmetric elasticity
- S.V. SIMEONOV: Remarks concerning the paper "Some methods of solution of nonlinear problems of the mechanics of deformable solids"

- T.N. KHAZANOVICH: Derivation of the equations of linear viscoelasticity
- B.N. RUMIANTSEV: On the motion of a rigid body containing cavities filled with a viscous liquid
- O.B. IEVLEVA: Small oscillations of a pendulum with a spherical cavity filled with a viscous liquid
- V.N. KOSHLYAKOV: On the equations of position of a moving object
- A.I. LUR'E: A theorem of dynamics
- A.F. SIDOROV: Two exact solutions of the equations of hydrodynamics of the type of a triple wave
- E.G. SAKHNOVSKII: Influence of Larmor rotation of charged particles in a nonstationary temperature field in a plane channel

INDEX for Vol.28

- A.L. GONOR: Remark concerning the paper "Determination of the shape of a body of minimum drag at hypersonic speed" *PMM* Vol.24, № 6, 1960
