

CONTENTS OF NEXT ISSUE

PMM Vol. 34, №1, 1970

- V. A. SYROVOI : Solution of the Cauchy problem for the Laplace equation in the three-dimensional case applicable to the problem of formation of intensive rays of charged particles
- V. E. NEUVAZHAEV : Motion of a gas for given three-dimensional distribution of pressure
- B. Ia. LIUBIMOV and F. R. ULINICH : Statistical equations of turbulent motion in Lagrangian coordinates
- V. F. VITIUK : Diffraction of surface waves at a dock of finite width
- I. M. RUTKEVICH : On the propagation of small disturbances in a visco-elastic fluid
- E. F. KHAIRETDINOV : On some uniform motions of soft soil
- V. V. NOVOZHILOV : On the relation between the mathematical expectations of the tensors of stress and strain in statistically isotropic homogeneous elastic bodies
- B. S. TURSUNOV : On the properties of the stress potential of elastic bodies
- V. M. KORNEV : On the formulation of boundary conditions of the simplified equations of shells of revolution
- Iu. G. EVTUSHENKO : Approximate analysis of the problems of optimal control
- A. P. PROSKURIAKOV : Stability of periodic solutions of quasilinear autonomous systems with several degrees of freedom
- M. Ia. KUSHUL' : Stability of periodic solutions of quasilinear elastic gyroscopic systems with distributed and concentrated parameters
- A. S. SEMENOV and V. A. TROITSKII : On optimization problems with bounded phase coordinates
- V. P. SDOBYREV : On some properties of plane and spatial bodies
- G. P. SOLDATOV : The instant of formation of a shock wave in a two-sided traffic flow
- V. N. MIKHAILOV : Gas flow past nonaxially symmetric bodies at small angles of attack
- L. Ia. KOSACHEVSKII : Magnetoacoustic waves in heterogeneous media
- B. M. BULAKH and M. S. SIMKIN : On the equations of three-dimensional laminar boundary layer of bodies of revolution
- G. Z. GERSHUNI, E. M. ZHUKHOVITSKII and D. L. SHVARTSBLAT : On the spectrum of convective instability in a vertical channel with permeable boundaries
- E. N. POTETTUNKO, L. S. SRUBSHCHIK and L. B. TSARIUK : On the application of the method of stationary phase in some problems of the theory of waves on the surface of a viscous fluid
- V. M. ENTOV : On the analogy of the equations of plane filtration and longitudinal shear of nonlinearly elastic and plastic bodies
- V. A. SVEKLO : Action of a stamp on an elastic anisotropic half-space
- V. A. ZIUZIN and V. I. MOSSAKOVSKII : Axisymmetric loading of an extended continuum with a spherical cavity
- D. S. TSELNIK : On the problem of vibration of a slightly curved plate
- A. M. SKOBEEV and L. M. FLITMAN : Moving load on an inelastic half-plane
