

CONTENTS OF NEXT ISSUE

PMM Vol. 34, №6, 1970

- A. P. MARKEEV : On the problem of stability of equilibrium positions of Hamiltonian systems
- N. N. KRASOVSKII and A. I. SUBBOTIN : An alternative for the game problem of approach
- L. S. GNOENSKII : On the accuracy of some nonlinear control systems with bounds and delay
- M. V. ULITSKAIA : On a particular case of the method of small parameter in the problem of synchronization
- M. A. ZAK : Uniqueness and stability of the solution of the problem of small disturbances of a flexible string with a free end
- M. N. KOGAN and V. V. MIKHAILOV : On the application of the non-steady analogy in constructing hypersonic flows near blunt bodies.
- A. I. GOLUBINSKII : Singular flow surfaces in conical gas flows
- A. N. KRAIKO and A. A. OSIPOV : On a construction of the contour of a hypersonic nozzle taking into account the changes in flight conditions of the aircraft.
- A. F. FILIPPOV : Reflection of a wave from a boundary composed of arcs of different curvature
- Ia. I. SEKERZH-ZEN'KOVICH : On a type of steady capillary gravitational waves of finite amplitude
- R. I. NIGMATULIN : Methods of mechanics of continuous media for the description of multiphase mixtures
- A. N. GUZ' : On bifurcation of the equilibrium position of a three-dimensional elastic isotropic body for large pre-critical deformations
- S. A. AMBARTSUMIAN : On the membrane theory of anisotropic shells
- E. M. ZVERIAEV : On the elasticity relations in the linear theory of thin elastic shells
- G. V. GORR : On a motion of a heavy rigid body in the case of Goriachev-Chaplygin
- L. N. AVDONIN : On a solution of the problem of the motion of a gyroscope in a universal joint suspension
- B. G. KLEINER and G. P. SHINDIAPIN : On a class of exact particular solutions of the equations for short waves
- E. G. SHIFRIN : Formation of a "hanging" shock wave in flow past a profile with a kink in the generator.
