

CONTENTS OF NEXT ISSUE

PMM Vol. 35, №5, 1972

- V. V. GOGOSOV and V. A. POLIANSKII: Discontinuities in electrohydrodynamics
- V. S. SADOVSKII: On vortex zones in potential flow with jumps in Bernoulli constant on the boundary
- N. N. BAUTIN: On approximations and bifurcations in a dynamic system
- G. K. POZHARITSKII: On the problem of impulsive encounter of motions
- P. B. GUSIATNIKOV: Necessary conditions of optimality in the linear problem of pursuit
- L. B. PACHEPSKAIA and A. M. FORMAL'SKII: Region of controllability of systems with two and three restrictions on controls
- E. I. GRIGOLIUK and V. M. TOLKACHEV: Contact problem for a semi-infinite cylindrical shell
- M. Iu. ZHUKOV and L. S. SRUBSHCHIK: Behavior of a closed spherical shell after loss of stability
- L. M. ZUBOV: Variational principles of the nonlinear theory of elasticity. Case of the superposition of small deformations on finite ones
- V. P. PLEVAKO: On the theory of elasticity of heterogeneous media
- V. A. BABESHKO: Periodic equations of convolution on segments occurring in the theory of elasticity and mathematical physics
- V. G. GROMOV: On mathematical contents of Volterra's principle in the boundary value problem of viscoelasticity
- E. L. AERO and A. N. BULYGIN: Equations of motion of nematic liquid crystals
- Iu. S. FEDOSENKO and M. I. FEIGIN: Periodic motions of a vibro-impactor, including a slippage region
- Iu. I. NEIMARK and N. A. FUFAYEV: Stability of curvilinear motion of a vehicle on wheels with pneumatic tires
- A. I. DERZHAVINA and O. S. RYZHOV: On the method of perturbations in the problem of short impact
- Iu. I. SOLOV'EV: On the reduction of three-dimensional axially-symmetric problems of the theory of elasticity to boundary value problems of analytical functions of a complex variable
- I. S. DEGTIAREV: On discontinuities in stresses and velocities of deformation in the three-dimensional problems of a compressible rigid plastic body
- E. E. IVANOVA: Investigation of the motion of space vehicles by the methods of the theory of similarity
- Iu. N. BIBIKOV and K. D. SANOVSKII: On dissipative behavior of an equation of nonlinear vibrations
- N. A. GUBAR': On bifurcations in the vicinity of "fused focus"
- G. P. SOLDATOV: On the theory of two-directional traffic flow
