

## CONTENTS OF NEXT ISSUE

PMM Vol. 35, №6, 1971

- N. N. KRASOVSKII : Minimax absorption in the game of approach
- A. A. MELIKIAN and F. L. CHERNOUS'KO : Some minimax problems of control with incomplete information
- M. BAIBAZAROV : Sufficient conditions of optimality in differential games
- V. G. VERETENNIKOV : On the investigation of stability of systems close to the critical one
- N. N. KOCHINA : On asymptotic behavior of solutions of some nonlinear problems of hydrodynamics
- O. B. NOVIK : Model description of roll waves
- V. G. BABSKII and I. L. SKLOVSKAIA : On the production of convection in a self-gravitating liquid sphere heated from the inside
- S. Ia. SEKERZH-ZEN'KOVICH : Diffraction at a circular island of long waves produced by a source near the shore
- O. S. RYZHOV : On nonlinear acoustics of chemically active media
- K. Sh. KHODZHAEV : On a nonlinear equation of electrohydrodynamics and magnetoelasticity
- V. D. LAMZUK and A. K. PRIVARNIKOV : On the maximum value of the radius of the contact area of a die with a layer
- N. A. ROSTOVTSEV and I. E. KHRANEVSKAIA : Solution of the Boussinesq problem of a half-space for a power dependence of the modulus of elasticity on depth
- A. A. KHRAPKOV : Problems of elastic equilibrium for an infinite wedge with an axisymmetric cut at the apex solvable in closed form
- V. N. NIKOLAEVSKII : The governing equations of plastic deformation of a granular medium
- A. E. LIMAREV and A. D. CHERNYSHOV : On propagation of shock waves in an elastoplastic medium with hardening
- D. N. AVDONIN : A theorem on instability of equilibrium
- F. Kh. TSEL'MAN : On vibrations of a system of coupled oscillators in case of a resonance of third order
- V. M. STARZHINSKII : On the coupling of radial and vertical vibrations of particles in cyclotrons
- V. A. SUCHKOV : On motion of a gas behind a plane detonation wave orthogonal to the free surface
- M. F. MEKHTIEV and Iu. A. USTINOV : Asymptotic investigation of a solution of the problem of the theory of elasticity for a shallow cone
