

## CONTENTS OF NEXT ISSUE

PMM Vol. 36, №2, 1972

- V. B. KOLMANOVSKII : On optimum control of some observation processes
- M. I. ALEKSEICHIK : On the existence of the value of a differential game of given duration
- G. K. POZHARITSKII : Game problem of impulsive "soft" encounter of two material points
- A. S. SUMBATOV : On the reduction of the differential equations of nonholonomic mechanics to the form of Lagrange
- M. Z. KOLOVSKII and Z. V. TROITSKAIA : On stability of linear systems with random parameters
- O. P. BARZUKOV : Even synchronization in a system with weak constraints of objects with one degree of freedom
- V. I. LEGEIDA and I. E. TARAPOV : Flow past a profile in a magnetic field, perpendicular to the plane of flow
- U. G. PIRUMOV : Spatial sub- and supersonic flows in nozzles and channels of variable cross section
- G. I. PSHENICHNOV : Free oscillations of a liquid in solid containers
- V. I. ARNOL'D : Remarks on the behavior of flows of three-dimensional ideal fluid for a small disturbance of the initial velocity field
- V. I. KLIATSKIN : On the nonlinear theory of stability of periodic flows
- O. K. AKSENTIAN and Iu. A. USTINOV : Construction of refined applied theories for a plate on the basis of the equations of the theory of elasticity
- E. L. AERO : Boundary value problem of the asymmetric theory of elasticity in quasi-classical approximation
- P. E. TOVSTIK : On the density of frequencies of vibration of thin shells of revolution
- V. N. MOSKALENKO : On frequency spectra of free vibrations of shells of revolution
- I. M. RUTKEVICH : On the thermodynamic interpretation of conditions of evolution of the equations of mechanics for viscoelastic media of Maxwell type with finite deformations
- Ia. A. KAMENIARZH : On simple waves and decay of a discontinuity in an elasto-plastic medium with Mises conditions
- M. I. RABINOVICH and A. A. ROZENBLIUM : On asymptotic methods of solution of nonlinear partial differential equations
- V. M. STARZHINSKII : Liapunov systems with damping
- A. P. PROSKURIAKOV : Periodic solutions of quasi-linear systems with several degrees of freedom for arbitrary frequencies
- B. G. VERETENNIKOV and V. A. SINITSYN : Discontinuous variational problem of optimization of control processes
- P. I. ZINIUKOV : On the accuracy of a nonlinear closed pursuing system
- A. S. OZIRANER and V. V. RUMIANTSEV : Method of the Liapunov function in the problem of stability of motion with respect to a part of variables
