

AUTHOR INDEX TO VOL. 36

	№	Page
AERO, E. L. : The boundary value problem of asymmetric elasticity theory in quasi-classical approximation	2	261
AKSENTIAN, O. K. and USTINOV, Iu. A. : Construction of refined applied theories for a plate on the basis of the equations of the theory of elasticity	2	251
ALEKSANDROV, V. M. and BABESHKO, V. A. : On the pressure on an elastic half-space by a wedge-shaped stamp	1	78
ALEKSANDROV, V. M. and CHEBAKOV, M. I. : Mixed problems of the mechanics of continuous media associated with Hankel and Mehler-Fock integral transforms	3	465
ALEKSEEV, A. A. and STRUNIN, B. M. : Characteristics of trajectories of a field generated by randomly distributed sources	5	887
ALEKSEICHIK, M. I. : On the existence of the value of a differential game of specified duration	2	174
AMENZADE, Iu. A. : Pressure of a stamp on a half-plane with inclusions	5	851
ANDREEV, L. V., MOSSAKOVSKII, V. I. and OBODAN, N. I. : On optimal thickness of a cylindrical shell loaded by external pressure	4	677
ANISIMOV, S. I. and SPINER, O. M. : Motion of an almost ideal gas in the presence of a strong point explosion	5	883
ARKHANGEL'SKII, Iu. A. : On the motion of Kowalewska's gyroscope in the Delone case	1	126
ARNOL'D, V. I. : Notes on the three-dimensional flow pattern of a perfect fluid in the presence of a small perturbation of the initial velocity field	2	236
ARUTIUNIAN, N. Kh. and MKHITARIAN, S. M. : Certain contact problems for a half-space reinforced by elastic gussets	5	727
AVERBUKH, A. Z. and VENITSIANOV, E. V. : Steady-state solutions of a dispersive system of nonlinear waves	5	764
BABESHKO, V. A. see ALEKSANDROV, V. M.	1	78
BABESHKO, V. A. and BERKOVICH, V. N. : On the theory of mixed problems for the three-dimensional wedge	5	892
BARZUKOV, O. P. : Multiple synchronization in a system of weakly-coupled objects with one degree of freedom	2	208
BAUTIN, N. N. : Qualitative investigation of a dynamic system	3	388
BELEN'KII, I. M. : On the normal configuration of conservative systems	1	28
BERDICHEVSKII, V. L. : Variational methods of constructing models of shells	5	743
BERKOVICH, V. N. see BABESHKO, V. A.	5	892
BERMAN, V. S. and RIAZANTSEV, Iu. S. : Analysis of the problem of thermal flame propagation by the method of matched asymptotic expansions	4	622

	№	Page
BIRIKH, R. V., GERSHUNI, G. Z., ZHUKHOVITSKII, E. M. and RUDAKOV, R. N. : On oscillatory instability of plane-parallel convective motion in a vertical channel	4	707
BODULINSKII, V. K., MEDVEDEV, Iu. A. and STEPANOV, B. M. : Exact solution of the problem of an infinitely conducting sphere with an arbitrary varying radius in an external magnetic field	3	532
BROVKO, G. L. and LENSKII, V. S. : On the convergence of the method of homogeneous linear approximations in problems of the theory of plasticity of inhomogeneous bodies	3	488
BRYZGALIN, G. I. : On some optimal design criteria of inhomogeneous anisotropic bodies	4	716
BUCHIN, V. A. : Problems of an electrohydrodynamic probe which does not disturb the distribution of current density and volume charge	3	527
BUEVICH, Iu. A. and MARKOV, V. G. : Rheology of concentrated mixtures of fluid with small particles. Parameters of phase interaction	3	452
BYKOVTSSEV, G. I. and KRETOVA, L. D. : Shock wave propagation in elastic-plastic media	1	94
CHEBAKOV, M. I. see ALEKSANDROV, V. M.	3	465
CHERNOUS'KO, F. L. see SOLIANIK, A. I.	5	780
CHESHANKOV, B. I. : Resonance oscillations of a compound torsion pendulum	1	116
DUROV, V. V. and IVLEV, D. D. : On the imbedding of a thin rigid body in a plastic medium with hardening	3	483
EMETS, Iu. P. : The periodic structure of an electric field in stratified plasma with tensor conductivity	4	582
ENGEL'BREKHT, Iu. K. : Estimate of the time of occurrence of discontinuities in the solution of a boundary value problem for a second order quasilinear hyperbolic system	3	497
FABRIKANT, V. I. : Exterior axisymmetric mixed problems for a transversely isotropic half-space	5	897
FEDOSENKO, Iu. S. and FEIGIN, M. I. : On the theory of the slipping state in dynamical systems with collisions	5	791
FEIGIN, M. I. see FEDOSENKO, Iu. S.	5	791
FILIMONOV, V. N. : Certain solutions of the equations of laminar boundary layer with large blowing	4	610
FIL'SHTINSKII, L. A. : Doubly-periodic problem of the theory of elasticity for an isotropic medium weakened by congruent groups of arbitrary holes	4	643
FRIDLENDER, O. G. see GALKIN, V. S.	5	829
GALKIN, V. S., KOGAN, M. N. and FRIDLENDER, O. G. : Flow past a strongly heated sphere by a gas with low Reynolds numbers	5	829
GERSHUNI, G. Z. see BIRIKH, R. V.	4	707
GOGOSOV, V. V. : One-dimensional electrohydrodynamic flows with variable coefficient. Evaporation and condensation jumps	4	572

	№	Page
GOGOSOV, V. V. and POLIANSKII, V. A. : The structure of electrohydrodynamic shock waves	5	802
GOL'DENGENSHEL', E. I. : Remark on the approximate solution of the problems of linear viscoelasticity	4	711
GORBANEV, N. N. : On certain classes of quasi-stationary flows of a perfect incompressible fluid	3	417
GRIBOVSKII, V. I. : One-dimensional electro-gasdynamic flow with shock waves and a small electrohydraulic interaction parameter	5	823
GROMOV, V. G. : The method of perturbations in the boundary value problem of thermoviscoelasticity	3	475
GRUDTSYN, L. N. : Plane perturbed motion of a material point of variable mass	1	162
GUPALO, Iu. P. and RIAZANTSEV, Iu. S. : Diffusion on a particle in the shear flow of a viscous fluid. Approximation of the diffusion boundary layer	3	447
GUSIATNIKOV, P. B. : On the information available to players in a differential game	5	864
IAKUBENKO, A. E. see SEMENOVA, I. P.	5	816
IAKUBOVICH, V. A. see LEVIT, M. V.	1	130
ILIEV, II. : Classification of linear integrals of a holonomic mechanical system with n degrees of freedom	1	112
ILIEV, II. and SEMERDZHIEV, Khr. : Relation between the first integrals of a nonholonomic mechanical system and of the corresponding system freed of constraints	3	381
IL'YUSHINA, E. A. : A version of the couple stress theory of elasticity for a one-dimensional continuous medium with inhomogeneous periodic structure	6	1019
IUDOVIKH, V. I. : Investigation of auto-oscillations of a continuous medium, occurring at loss of stability of a stationary mode	3	424
IVLEV, D. D. : On general relationships of the theory of ideal plasticity and the statics of a friable medium	5	907
KAMENIARZH, Ia. A. : Simple waves and collapse of a discontinuity in an elastic-plastic medium with Mises condition	2	296
KAMENIARZH, Ia. A. : On some properties of the equations of a model of coupled thermoplasticity	6	1031
KANDIDOV, V. P. and KHLYBOV, E. P. : On the convergence of the method of finite elements in the analysis of membrane dynamics	3	533
KHLYBOV, E. P. see KANDIDOV, V. P.	3	533
KHODZHAEV, K. Sh. and SHTILERMAN, I. Z. : On a boundary value problem of nonlinear magnetoelasticity	5	902
KLIATSKIN, V. I. : On the nonlinear theory of stability of periodic flows	2	243
KOGAN, M. N. see GALKIN, V. S.	5	829
KOLMANOVSKII, V. B. : Optimal control by certain observation processes	2	167
KOLOVSKII, M. Z. and TROITSKAIA, Z. V. : On the stability of linear systems with random parameters	2	201

	№	Page
KOZIN, N. S. : Small perturbations in a stream issuing from a slit	4	605
KOZIN, N. S. : On the stability of a plain hollow vortex	1	53
KRASOVSKII, N. N. : Extremal control in a nonlinear differential game	6	930
KRETOVA, L. D. see BYKOVTSSEV, G. I.	1	94
KRUPNOVA, N. I. and SHIMANOV, S. N. : Criterion of stability of linear systems with variable coefficients and time lag	3	502
KRYZHANOVSKII, G. A. and SOLODUKHIN, V. A. : Optimizing functional in combined controls of dynamic plants	1	20
KULIEV, V. D. : On a dynamic problem in the theory of elasticity	6	1049
KURSHIN, L. M. and SHKUTIN, L. I. : On the problem of the elastic stability of a locally loaded cylindrical shell	6	1055
KUZNETSOV, E. A. : Turbulence invariants in incompressible magneto-hydrodynamics	4	705
KUZ'MINA, L. K. : On the stability of gyroscopic stabilization systems	4	692
LEGEIDA, V. I. and TARANOV, I. E. : Flow past a profile in a magnetic field perpendicular to the stream plane	2	214
LENSKII, V. S. see BROVKO, G. L.	3	488
LEVIT, M. V. : Algebraic criterion for the stochastic stability of linear systems with the parametric action of correlated white noise	3	516
LEVIT, M. V. and IAKUBOVICH, V. A. : Algebraic criterion for stochastic stability of linear systems with parametric action of the white noise type	1	130
LILOV, L. K. : On stabilization of steady-state motions of mechanical systems with respect to a part of the variables	6	922
MACHIL'SKII, A. P. : Integrals of relative motion of a system of particles of identical mass	5	860
MANEVICH, L. I. and MIKHLIN, Iu. V. : On periodic solutions close to rectilinear normal vibration modes	6	988
MARKEEV, A. P. : On the normalization of a Hamiltonian system of linear differential equations with periodic coefficients	5	758
MARKHASHOV, L. M. : Analytic equivalence of second-order systems for an arbitrary resonance	6	969
MARKMAN, G. S. : Convective instability of a fluid layer in a modulated external force field	1	141
MARKOV, V. G. see BUEVICH, Iu. A.	3	452
MEDVEDEV, Iu. A. see BODULINSKII, V. K.	3	532
MEL'NIKOVA, N. S. : Explosion in a variable-density medium in the presence of variable counterpressure	4	590
MEN'SHIKH, O. F. : On one exact solution of equations of plain nonstationary motion of gas	1	57
MIKHLIN, Iu. V. see MANEVICH, L. I.	6	988
MIL'SHTEIN, G. N. : Mean square stability of linear systems under the action of a Markov chain	3	506
MKHITARIAN, S. M. see ARUTIUNIAN, N. Kh.	5	727

	№	Page
MOSKALENKO, V. N. : On the frequency spectra of natural vibrations of shells of revolution	2	279
MUKHINA, I. V. : Approximate reduction of the equations of the theory of elasticity and electrodynamics for inhomogeneous media of the Helmholtz equations	4	629
NAGAEV, R. F. : Periodic solutions of piecewise-continuous systems with a small parameter	6	995
NAZAROV, G. I. and PUCHKOV, A. A. : Torsion of an axisymmetric anisotropic body with mixed boundary conditions on the side surface	6	1026
NAZIEV, E. Kh. : On the Hamilton-Jacobi method for nonholonomic systems	6	1038
NULLER, B. M. : Some contact problems for an elastic infinite wedge	1	146
OREL, A. A. : Note on variational problems of transonic gas flows	5	890
OSIPOV, I. O. : On wave fields and acute-angled edges on wave fronts in an anisotropic medium from a point source	5	874
OSTROVSKII, L. A. and PELINOVSKII, E. N. : Method of averaging and the generalized variational principle for nonsinusoidal waves	1	63
OZIRANER, A. S. : On certain theorems of Liapunov's second method	3	373
OZIRANER, A. S. : On the stability of the equilibrium positions of a solid body with a cavity containing a liquid	5	774
OZIRANER, A. S. and RUMIANTSEV, V. V. : The method of Liapunov functions in the stability problem for motion with respect to a part of the variables	2	341
PARTON, V. Z. : The axially symmetric temperature problem for the space with a disk-shaped crack	1	104
PASHKOV, A. G. : On an estimate in a differential game of encounter	6	955
PASKALENKO, A. A. and POPOV, G. Ia. : Plane problem of bending of a semi-infinite beam resting on a linearly deformable foundation	1	84
PATSKO, V. S. : Evasion conditions in a second-order linear differential game	3	394
PATSKO, V. S. : Point evasion conditions in a second-order differential game	6	948
PELINOVSKII, E. N. see OSTROVSKII, L. A.	1	63
PETUKHOV, L. V. and TROITSKII, V. A. : Variational optimization problems for equations of hyperbolic type	4	545
PETUKHOV, L. V. and TROITSKII, V. A. : Some optimal problems of the theory of longitudinal vibrations of rods	5	842
PIRUMOV, U. G. : Three-dimensional sub- and supersonic flows in nozzles and channels of varying cross section	2	220
PLEVAKO, V. P. : On the possibility of using harmonic functions for solving problems of the theory of elasticity of nonhomogeneous media	5	834
POBEDRIA, B. E. : On the use of rational approximating functions	6	1068
POLIANSKII, V. A. see GOGOSOV, V. V.	5	802
POPOV, G. Ia. see PASKALENKO, A. A.	1	84

	№	Page
POPOV, G. Ia. : On the reduction of integral equations of the theory of elasticity to infinite systems	4	633
POZHARITSKII, G. K. : Game problem of the hard contact of two points with an impulse thrust in a linear central field	6	961
POZHARITSKII, G. K. : Game problem of the "soft" impusle contact of two material points	2	185
PROSKURIAKOV, A. P. : Periodic sultions of quasi-linear systems with several degrees of freedom in presence of arbitrary frequencies	2	324
PSHENICHNOV, G. I. : Free oscillations of liquid in rigid vessels	2	229
PUCHKOV, A. A. see NAZAROV, G. I.	6	1026
RABINOVICH, M. I. and ROZENBLIUM, A. A. : Asymptotic methods of solving nonlinear partial differential equations	2	305
RIAZANTSEV, Iu. S. see GUPALO, Iu. P.	3	447
RIAZANTSEV, Iu. S. see BERMAN, V. S.	4	622
ROZENBLIUM, A. A. see RABINOVICH, M. I.	2	305
ROZENSHTAIN, V. Iu. : Determination of dynamic characteristics of nonlinearity of a self-oscillating system	4	698
RUBANOVSKII, V. N. : On the stability of certain motions of a rigid body with elastic rods and liquid	1	38
RUBINA, L. I. : Propagation of weak discontinuities for quasi-linear systems	3	409
RUDAKOV, R. N. see BIRIKH, R. V.	4	707
RUMIANTSEV, V. V. : On control and stabilization of systems with ignorable coordinates	6	913
RUMIANTSEV, V. V. see OZIRANER, A. S.	2	341
RUTKEVICH, I. M. : On the thermodynamic interpretation of the evolution-ary conditions of the equations of the mechanics of finitely deformable viscoelastic media of Maxwell type	2	283
SAMOKHIN, V. N. : On the plane-parallel symmetric boundary layer generated by sudden motion	3	443
SEDOV, L. I. : On conditions at second-order discontinuities in the theory of gravitation	1	1
SEKERZH-ZEN'KOVICH, Ia. I. : On steady capillary-gravitational waves of finite amplitude at the surface of fluid over an undulating bed	6	1004
SEMENOVA, I. P. and IAKUBENKO, A. E. : One-dimensional electrohydro-dynamic flows with shock waves	5	816
SEMERDZHIEV, Khr. see ILIEV, H.	3	381
SHAKHTARIN, B. I. see ZAVARYKIN, V. M.	5	872
SHIMANOV, S. N. see KRUPNOVA, N. I.	3	502
SHKUTIN, L. I. see KURSHIN, L. M.	6	1055
SHTILERMAN, I. Z. see KHODZHAEV, K. Sh.	5	902
SIBGATULLIN, N. R. : On nonlineat transverse resonant oscillations in an elastic layer and a layer of perfectly conducting fluid	1	70
SIDOROV, A. F. : Method of solution of certain boundary value problems for nonlinear hyperbolic equations and propagation od weak shock waves	3	401

	№	Page
SILAEV, D. A. : Time-periodic solution of the system of boundary layer equations	3	433
SINITSYN, V. A. see VERETENNIKOV, V. G.	2	333
SKRIABIN, B. N. : On a phase automatic frequency control equation with a lag and a rectangular phase detector characteristic	3	522
SMORODIN, A. I. : Waves at the fluid surface during the motion of a submerged ellipsoid of revolution	1	137
SOKOLOVA, L. E. : On the stabilization of relative equilibrium and steady-state motion of a mechanical system by partial dissipation forces	4	556
SOLIANIK, A. I. and CHERNOUS'KO, F. L. : Approximate synthesis method for optimal control of a system subjected to random perturbations	5	780
SOLODUKHIN, V. A. see KRYZHANOVSKII, G. A.	1	20
SRUBSHCHIK, L. S. : Asymptotic method of determining the critical buckling loads of shallow strictly convex shells of revolution	4	665
STARZHINSKII, V. M. : Liapunov systems with damping	2	318
STEPANOV, B. M. see BODULINSKII, V. K.	3	532
STRUNIN, B. M. see ALEKSEEV, A. A.	5	887
SUBBOTIN, A. I. : Program and position absorption in differential games	4	701
SUBBOTINA, N. N. : On a game problem of conflicting control	4	564
SUMBATOV, A. S. : Integration of dynamic equations with constraints multipliers	1	153
SUMBATOV, A. S. : Reduction of the differential equations of nonholonomic mechanics to Lagrange form	2	194
TARANOV, I. E. see LEGEIDA, V. I.	2	214
TEN, V. P. : Torsional vibrations of a viscoelastic half-space	3	538
TOVSTIK, P. E. : On the density of the vibration frequencies of thin shells of revolution	2	270
TROITSKAIA, Z. V. see KOLOVSKII, M. Z.	2	201
TROITSKII, V. A. see PETUKHOV, L. V.	4	545
TROITSKII, V. A. see PETUKHOV, L. V.	5	842
USHAKOV, V. N. : Extremal strategies in differential games with integral constraints	1	12
USTINOV, Iu. A. see AKSENTIAN, O. K.	2	251
VEISSENBERG, A. N. : On the possible types of critical cases for Lagrange equations of second kind	3	367
VENITSIANOV, E. V. see AVERBUKH, A. Z.	5	764
VERETENNIKOV, V. G. and SINITSYN, V. A. : Discontinuous variational problem of the optimization of control processes	2	333
VITIUK, V. F. : Waves generated by perturbations of the bottom of a tank with a dock	4	600
VOROB'EV, N. V. : On obtaining evolutionary equations for quasilinear systems	6	981
VOROVICH, I. I. and LEBEDEV, L. P. : On the existence of solutions of the nonlinear theory of shallow shells	4	652

	№	Page
ZAVARYKIN, V. M. and SHAKHTARIN, B. I. : Regions of asymptotic stability of Liénard's equation	5	872
ZHITEL'ZEIF, E. D. : Periodic solutions for equations of certain autonomous systems	6	1045
ZHUKHOVITSKII, E. M. see BIRIKH, R. V.	4	707
ZINIUKOV, P. I. : On the accuracy of a nonlinear closed servomechanism	2	337
ZLATINA, I. N. : The application of dual integral equations to the problem of torsion of an elastic space, weakened by a conical crack of finite dimensions	6	1062
ZVOLINSKII, N. V. : Hydrodynamic theory of the action of explosion and the assumption of incompressibility	4	686
