PMM Vol. 37, №1, 1973

- A. V. KRIAZHIMSKII and Iu. S. OSIPOV : Differential-difference game of approach with functional total set
- S. I. TARLINSKII : On a linear differential game of approach
- B. E. FEDUNOV : Control synthesis in the problem with phase limitations
- N. V. VOROB'EV : On nonlinear disturbances at resonance
- Iu. M. -L. KOSTIUKOVSKII : On an idea of N. G. Chetaev
- V. A. BUCHIN : Some exact solutions of a system of equations of electrohydrodynamics
- A. B. VATAZHIN and V. I. GRABOVSKII : Propagation of unipolar charged jets in hydrodynamic flows
- O. S. RYZHOV and E. D. TEREH'T'EV : On the general theory of nonsteady flows close to self-similar ones
- V. L. KATKOV : Group classification of the equations of hydrodynamics of an ideal fluid
- V. B. PORUCHIKOV : Penetration of a cone into a compressible fluid
- V. N. NIKOLAEVSKII : Axisymmetric mechanics of turbulent flows. Energy and entropy
- N. A. ROSTOVTSEV and I. E. KHRANEVSKAIA : Plane problem for a nonhomogeneous elastic circular domain
- S. A. AMBARTSUMIAN, G. E. BAGDASARIAN and M. V. BELUBEKIAN : On magnetoelasticity of thin shells and plates
- L. S. SRUBSHCHIK : On loss of stability of nonsymmetric, strongly buckled, thin shallow shells
- L. A. BABICHEVA, G. I. BYKOVTSSEV and N. D. VERVEIKO : Ray method of solving dynamic problems of viscoelastoplastic media
- G. DIUKICH : On the generalized form of Lagrange's equations of the second kind
- V. P. SKRIPNIK : On stability of nonlinear systems with transformed argument
- V. B. KOLMANOVSKII : On some impulsive laws of observation
- V. I. TSURKOV : On the possibility of gas dynamic effects at the critical point of phase equilibrium
- N. S. MEL'NIKOVA : On explosion in detonation media with variable initial density
- G. K. TER-GRIGOR'YANTS : On the generalization of doubly periodic convection in a horizontal layer
- P. S. CHERNIAKOV : Classical solutions of the second boundary value problem for the equations of nonsteady free convection
