

CONTENTS OF NEXT ISSUE

PMM Vol. 37, №3, 1973

- V. M. MOROZOV, V. N. RUBANOVSKII, V. V. RUMIANTSEV and V. A. SAMSONOV : On bifurcation and stability of steady motions of complex mechanical systems
- K. Sh. KHODZHAEV : On stability of stationary motions of systems with quasi-ignorable coordinates and mechanical equilibrium under the action of a magnetic field
- V. M. STARZHINSKII : A practical procedure of calculating normal modes in problems of nonlinear vibrations
- A. S. BRATUS' : An approximate solution of the Bellman equation for a class of problems of optimal control of the terminal state
- A. A. MELIKIAN : On minimum observations in a game of approach
- U. K. NIGUL : Deviation of a solution of the quasilinear wave equation from the solution of the linear equation in the range of continuous first derivatives
- P. I. USIK : A mechanical-chemical continuum model of muscle tissue
- V. Kh. KIRILLOV : The electric field in a MHD channel of rectangular cross section in the presence of the Hall effect
- A. N. KRAIKO and N. I. TILLIAEVA : On the construction of the contour of minimum wave resistance in a nonhomogeneous supersonic flow
- V. M. ASTAPENKO : Nonstationary flow of an incompressible liquid past a doubly periodic grid
- Iu. I. KAPRANOV : On the shape of the fresh water lens for a linear evaporation law
- L. P. LEBEDEV : On the unique solution and some approximate methods of solving the linear problem of visco-elasticity
- S. I. LITOVCHENKO and B. M. NULLER : On the bending of an elastic cylinder by rigid clamps
- I. A. KUNIN, G. N. MIRENKOVA and E. G. SOSNINA : The ellipsoidal crack and needle in an anisotropic elastic medium
- Iu. N. NOVICHKOV : Nonlinear theory and stability of thick multi-layered shells
- F. Kh. TSEL'MAN : "Small vibrations" of a heavy rigid body about a fixed point and some cases of existence of "linear integrals"
- R. RAM and V. D. SHARMA : Regular reflection of an oblique jump in plane flow of an ideal dissociating gas in the presence of a transverse magnetic field
- D. D. MALIK and P. SINGKH : Self-similar flow behind shock waves in a gravity field
- N. N. BOGDAT'EVA and L. A. DIKII : Remarks on the stability of three-dimensional flows of an ideal fluid
- E. E. SHNOL' : Remarks on the mathematical theory of small vibrations of an inviscid gas
- G. E. GERSHUNI, E. M. ZHUKHOVITSKII and A. A. IAKIMOV : On two types of instability of stationary convective flow generated by internal heat sources
- G. Kh. KIROV, P. K. PAVLOV and N. S. RAIKOV : On a problem of the plane theory of elasticity with mixed boundary conditions
- V. D. KULIEV : Stationary motion of a crack in a strip
