

CONTENTS OF NEXT ISSUE

PMM Vol. 38, № 3, 1974

- N. N. KRASOVSKII : Regular differential games
- V. F. ROSSOKHIN : On the game problem of approach with mixed controls
- F. Kh. ABASHEV and I. Ia. KATS : Stochastic problems of optimal control with nonconvex constraints
- P. B. GUSIATNIKOV : On the l -evasion of encounter in a linear differential game
- L. D. AKULENKO : Investigation of some optimal systems by the method of averaging
- A. S. BRATUS' : Solution of some problems of optimal correction with an error of performance of the guiding action
- S. T. ZAVALISHCHIN and A. N. SESEKIN : Minimization of the integral estimate of the kinetic energy of a harmonic oscillator by means of impulsive control
- G. V. GORR : Some properties of precessional motions with respect to the vertical of a heavy rigid body with one fixed point
- Iu. V. MIKHLIN : Resonance regimes of nonlinear systems close to conservative ones
- V. V. GOGOSOV, V. A. NALETOVA and N. L. FARBER : Structure of electrohydrodynamic shock waves in multicomponent and multiphase mixtures in the case of arbitrary interaction parameter
- V. I. BOGATKO : Plane and axisymmetric nonstationary gas flows with strong shock waves
- L. E. PEKUROVSKII and S. M. TER-MINASIAN : Diffraction of a plane wave by a wedge moving with supersonic velocity for the case of nonregular shock interaction
- N. N. BOGDAT'EVA : On the nonexistence of a continuous spectrum in the problem of stability of plane-parallel flow of an ideal fluid
- E. E. SHNOL' : On instability of plane-parallel flows of an ideal fluid
- V. N. DESNIANSKII and E. A. NOVIKOV : Modelling of cascade processes in turbulent flows
- I. B. BASOVICH : Determination of the variable permeability of a layer in the case of radial symmetry by means of experimental pumping-out from the central well
- A. BEGMATOV : On forced-nonforced motion of ground water in a layer with a weakly permeable top and bottom
- V. A. BABESHKO and V. V. KALINCHUK : On an approximate method of solution of integral equations in dynamic contact problems
- V. I. FABRIKANT : Exact solution of the external fundamental mixed problem
- O. V. SOTKILAVA and G. P. CHEREPANOV : Some problems of the nonhomogeneous theory of elasticity
- B. V. KOSTROV : Crack propagation with variable velocity
- G. A. BRUSILOVSKAIA and L. V. ERSHOV : Dynamics of a shallow, symmetrically loaded elastic circular cylinder
- A. V. KOLOS and M. D. SOLODOVNIK : On the character of the boundary layer along the line of discontinuity of surface loading on a plate
- B. A. SHOIKHET : On existence theorems in linear shell theory
- A. N. VEISSENBERG : Criteria of sign-definiteness of higher order forms
- A. D. LIZAREV and N. B. ROSTANINA : On logarithmic derivatives of adjoint functions of Legendre of arbitrary complex order
