

CONTENTS OF NEXT ISSUE

PMM Vol. 38, № 6, 1974

- G. P. CHEREPANOV : Inverse problems of the plane theory of elasticity
- E. P. SMIRNOVA : Stabilization of free motion of an asymmetric gyroscope with cavities completely filled with a liquid
- V. S. NUSTROV : On a case of resonance for nonlinear systems
- E. N. PELINOVSKII and V. E. FRIDMAN : Explosive instability of nonlinear waves in media with negative viscosity
- L. B. AIZIN : On stability of weakly nonhomogeneous states with a small addition of white noise
- V. M. DVORETSKII, M. Ia. IVANOV, B. A. KONIAEV and A. N. KRAIKO : On the "equivalence" rule for flows of an ideal gas
- E. A. GERSHBEIN : Theory of the hypersonic viscous shock layer for large Reynolds numbers and for strong influx of different gases
- S. N. OVCHINNIKOVA and V. I. IUDOVICH : Stability and bifurcation of Couette flow in the case of a narrow gap between rotating cylinders
- S. P. LEVITSKII and A. T. LISTROV : On stability of flow of a liquid crystal layer on an inclined plane
- A. B. GOL'DBERG, Iu. P. GUPALO and Iu. S. RIAZANTSEV : On nonstationary mass exchange of a reacting spherical particle in laminar flow of a viscous fluid
- Iu. I. KAPRANOV : Lens of fresh water formed by uniform filtration
- L. A. FIL'SHTINSKII : Optimum control by means of forced motions of systems with continuously distributed parameters
- N. N. ROGACHEVA : On the elastic relations of Reissner-Naghdi
- M. I. GUSEIN-ZADE : Asymptotic analysis of three-dimensional dynamic equations for a thin plate
- V. A. SVEKLO : The Hertz problem of compression of anisotropic bodies
- L. T. BOIKO and P. E. BERKOVICH : Contact problem for a plane containing a slit of variable width
- N. N. LEBEDEV and I. P. SKAL'SKAIA : Dual integral equations related to the Kontorovich-Lebedev transformation
- V. L. GONSOVSKII and Iu. A. ROSSIKHIN : On acceleration waves in anisotropic thermoelastic media taking into account a finite velocity for heat propagation
- N. V. KOTENKO and M. P. LENIUK : On dynamic effects in an elastic half-space under "thermal shock"
- Ia. A. KAMENIARZH : On the existence of stress rates in a hardening elasto-plastic medium
- G. A. ALEKSEEV and N. R. SIBGATULLIN : Effect of interchange of electro-magnetic and gravitational waves in strong external electro-magnetic fields and wave propagation in the field of a charged "black hole"
- L. S. METLOV and V. G. PONOMARENKO : On the determination of the sound field in a layer
- V. G. BUKOVSHIN and G. I. TAGANOV : Laminar mixing layer at the boundary of two flows in the presence of longitudinal pressure gradient
- M. V. LUR'E and M. V. FILINOV : On a self-similar solution of the two-dimensional filtration problem in regions with moving boundaries
- A. E. PURO : Separation of the equations of the theory of elasticity for radial nonhomogeneity
- D. R. MERKIN : Letter to the editor
