PMM Vol. 42, №1, 1978

- Krasovskii, N.N. : Program constructions for positional game control
- Maksimov, V.I. : On the existence of a saddle point in the differential-difference game of approach-evasion
- Men'shikov, I.S. : Hierarchical differential game
- Kozlov, V. V. and Kolesnikov, N.N. : On theorems of dynamics
- Chernous'ko, F.L. : On the motion of a rigid body with elastic and dissipative elements
- Sumbatov, A.S. : On the problem of finding cyclic coordinates in conservative dynamic systems
- Markeev, A. P. and Sokol'skii, A.G. : Method of constructing and investigating stability of periodic motions of autonomous Hamiltonian systems
- Grumondz, V. T. : On the study of vibrations in non-linear mechanical systems of arbitrary order
- Akulenko, L. D. : Asymptotic solution of some non-linear problems of time optimal response
- Zavolzhenskii, M. V. and Terskov, A. Kh. : Motion of a heavy viscous fluid forming a thin shell of a rotating planet in a circular orbit
- Sidorov, A. F. : On some gas flows in a gravity field
- Golovin, A. M. and Chizhov, V. E. : On the calculation of the velocity of settling of a homogenous suspension
- Aleksandrov, V. M. and Buriak, V. G. : On some dynamic mixed problems of the theory of elasticity
- Popov, G. Ia. : On a method of solving mechanics problems for a region with cuts or thin inclusions
- Berdichevskii, B.L. : Energy methods in some problems of attenuated solutions
- Zlatin, A.N. : Variational method to solve contact problems for an adhering cylinder and a layer
- Filippov, I.G. : On the theory of diffraction of linear visco-elastic waves
- Simonov, I. V. : Diffraction of shock waves at small angles in an ideal compressible medium
- Sedov, L.I. : On the composition of motions with respect to deformable reference systems
- Konkina, L.I. : On an averaging method in dynamics of rigid bodies
- Kalashnikov, A.S. : On continuous dependence of generalized solutions in the equations of non-stationary filtration on a function giving the flow regime
- Cherkaev, A. V. : On the question of formulating the problem of optimal construction of freely vibrating bodies
- Sveklo, V. A. and Torubarova, N.S. : On the settlement of a plane stamp acting on an orthotropic half-space
