

CONTENTS OF NEXT ISSUE

PMM Vol. 42, Issue 6, 1978

- A. V. Kriazhimskii : On stable positional control in differential games
Iu. S., Osipov, V. G. Pimenov: On the theory of differential games in systems with aftereffect
- V. B. Kolmanovskii, L. E. Shaikhet: On approximate synthesis of optimal control by stochastic quasilinear systems with aftereffect
- L. D. Akulenko: Optimal synthesis in some problems of terminal control
- V. B. Larin: On weak control by weakly damped systems
- P. B. Gusiatnikov: On the necessity of a sufficient condition for optimal time of pursuit
- A. Iu. Khapalov: The problem of minimaximal, average-squared filtration for a parabolic system
- V. N. Tkhai: On stability of constant Laplacian solutions for the unbounded problem of three bodies
- A. L. Kunitsyn: On asymptotic stability of resonance systems
- V. T. Grumondz: On vibrations of mechanical systems, not degenerating to linear ones as a parameter becomes zero
- V. I. Sedenko, V. I. Iudovich: Stability of stationary flows of an ideal incompressible liquid with a free boundary
- V. M. Agranat, A. M. Grishin: Qualitative analysis of regimes of nonstationary heat and mass exchange in a boundary layer with chemical reactions for intensive injection
- V. N. Zakorko: Contact problem for a layer with two dies
- V. A. Churilov: On the effect on an elastic half-space of an elliptic die, moving with constant velocity
- L. M. Filippova: The spatial contact problem for a prestressed elastic body
- V. A. Babeshko, A. N. Rumiantsev: Vibration of a die, partially adhering to an elastic medium
- V. P. Baran, D. V. Grilitskii, R. I. Mokrik: On the theory of dynamic thermoelasticity
- L. P. Trapeznikov, B. A. Shoikhet: On the solution of the problem of the theory of creep for aging bodies with growing cracks and cavities
- A. E. Osokin, Iu. V. Suvorova: The nonlinear governing equation of a hereditary medium and the methodology of determining its parameters
- E. S. Sinaiskii: On numerical realization of the function of the hereditary operator
- S. A. Vakhrameev: Theorem on the alternative for the nonstationary differential game of pursuit - evasion
- L. G. Vasil'eva, V. N. Lagunov: On a problem of correction of the control process
- Iu. B. Seisov: Sufficient optimality conditions
- A. S. Sumbatov: Solution of a Birkhoff problem
- L. A. Manashkin: Vibrations of linear one-dimensional systems with moving weights under longitudinal impacts
