

## CONTENTS OF NEXT ISSUE

PMM Vol. 43, No. 1, 1979

- Ia. A., KAMENIARZH, and L. I. SEDOV : Macroscopic introduction of entropy for weakened assumptions concerning realizable processes
- G. E. KOLOSOV : Synthesis of optimal control systems by the method of successive approximations
- R. T. IANUSHEVSKII : On the existence of the solution of a problem of optimal control by systems with lag
- N. N. KORTIKOV, and I. B. NOVIKOVA : The method of singular perturbations in the problem of linear flow past a right circular cone
- P. A. VEL'MISOV : Asymptotic investigation of nonlinear effects in the problem on nonstationary supersonic flow past an airfoil
- A. V. GRISHIN and E. G. SHIFRIN : On the regime of an attached shock wave along the edges of a V-shaped wing
- A. I. RYLOV : On the degeneration of supersonic flow in the case of interaction of focused waves of compression and rarification
- E. D. THERENT'EV : On disturbances connected with the finite momentum in the problem of a strong point explosion
- N. F. PATSEGOV, R. V. POLOVIN and I. E. TARAPOV : Simple waves and strong discontinuities in a magnetized medium
- A. D. POLIANIN and Iu. A. SERGEEV : Convective diffusion to a particle in a fluid with nonlinear kinetics
- V. S. BERMAN, Iu. S. RIAZANTSEV and V. M. SHEVTSOVA : On ignition of a reacting gas by means of a heat source with finite heat capacity
- N. V. BANICHUK and A. A. MIRONOV : A free-streamline method to study equilibrium shapes of elastic plates in fluid flow and optimization problems
- I. L. GALINA : Efflux of a jet from a channel with a deformable obstacle
- I. G. GORIACHEVA : Plane and axisymmetric contact problems for rough elastic bodies
- A. B. KOVURA and V. I. MOSSAKOVSKII : Contact problem with a semi-unknown boundary of the contact region
- V. A. IBRAGIMOV : On some exact solutions of the static problem of complex shear.
- V. M. ALEKSANDROV and V. B. ZELENTSOV : Dynamic problems of bending of a rectangular plate with mixed support conditions along the contour
- V. G. VIL'KE : On existence and uniqueness of solutions of some classes of dynamic problems of the nonlinear theory of elasticity
- I. G. FILIPPOV : Approximate method of solution of dynamic problems for linear visco-elastic media
- L. V. BELOKOPYTOVA and L. A. FIL'SHTINSKII : Two-dimensional boundary value problem of electro-elasticity for a piezoelectric medium with cracks
- G. A. DOMBROVSKII : On the asymptotic behavior of unloading waves
- L. A. KIPNIS : Elastic equilibrium of a wedge with a crack
- V. D. KULIEV : On plastic deformation at the top of an edge crack
- V. M. KEIN and A. N. PARIKOV : On accuracy of control under perturbation conditions with bounded spectrum of amplitudes

- K. A. ABGARIAN : On a formulation of a stability problem over a finite interval.
- M. P. TSOPA : On periodic motions of a gyrostat with a fixed point in a Newtonian field
- N. N. ROGACHEVA : On boundary conditions in the theory of cylindrical shells of V. Z. Vlasov
- S. G. LEKHNITSKII : On bending of a plane nonhomogeneous curved bar
- I. K. LIFANOV : On the method of discrete vortices
- A. S. BLAGOVESHCHENSKII : On a case of explicit solution of a nonstationary inverse problem
-
