

## CONTENTS OF NEXT ISSUE

Volume 46, Issue 6, 1982

- KRASOVSKII N.N.: On stochastic program synthesis of strategies in a differential game.
- LOGINOV M.I.: On a method of extremal control.
- POKOTILO V.G.: On asymptotic properties of a priori minimax estimates.
- CHIKRII A.A.: Group pursuit for bounded coordinates of the pursued.
- VOROTNIKOV V.I.: On stability and stabilization of motion with respect to a part of variables.
- DRUZHILOVSKAIA T.Iu. and NEIMARK Iu.I.: Stochastic autovibrations of a nonlinear oscillator with a shock type sink of energy.
- FEIGIN M.I.: Some cases of loss of control over the motion of symmetric systems.
- KLOKOV V.I. and KHOLSHEVNIKOV K.V.: Global study of rotational motion of a rigid body.
- SEKERZH-ZEN'KOVICH S.Ia.: Cauchy's problems for equations of internal waves.
- SANNIKOV V.F. and CHERKESOV L.V.: Convergence of approximate solutions for waves in a stratified liquids when approximating the density distribution.
- PUKHNACHEV V.V. and SOLONNIKOV V.A.: On the problem of dynamic edge corner.
- KRAIKO A.N.: On the behavior of two-dimensional non-plane parallel vortex flows of a non-viscous gas.
- KULIKOVSKII A.G. and SLOBODKINA F.A.: On the behavior of small perturbations of one-dimensional stationary transonic flows.
- SAMODUROV A.A. and TIKHOMIROV A.S.: Solution of the problem on bending of a circular plate with a free edge with application of dual equations.
- GRILITSKII D.V., OPANASOVICH V.K. and TISOVSKII L.O.: Elastic state of stress of a plate with a circular washer and a rectilinear thin elastic inclusion.
- BELINSKII B.P.: Study of sound of a plate reinforced by a set of protruding stiffening ribs under the action of a periodic system of forces.
- ALGAZIN S.D. and BABENKO K.I.: Numerical solution of the problem of bending and free vibrations of a plate.
- GALIN L.A. and GORIACHEVA I.G.: Spatial contact problem of the motion of a stamp with friction.
- ALEKSANDROV V.M., KOVALENKO E.V. and MKHITARIAN S.M.: On a method of obtaining spectral relations for integral operators of mixed problems of the mechanics of continuous media.
- BUGAENKO S.E.: Structure of tensor fields of second rank generated by the incompatibility operator.
- SHIMANOV S.S.: Liapunov function for different systems of second order.
- VIL'KE V.G.: Evolution of regular precession of a rigid body carrying a viscoelastic disc.
- BUTOV V.G., VASENIN I.M. and SHRAGER G.R.: Deformation of a drop in a viscous flow and conditions of existence of its equilibrium shape.
-
