

CONTENTS OF NEXT ISSUE

Volume 47, Issue 2, 1983

- SEDOV L.I.: On dynamic properties of gravitational fields.
- ZHURAVLEV V.P., NAZAROV S.A. and SHOIKHET B.A.: Asymptotic behavior in the vicinity of the crack tip of the stress-deformation state of nonuniformly aging bodies.
- ZADOIAN M.A.: Plastic flow of cone-shaped bodies.
- MKHITARIAN S.M.: On some spectral relations, associated with Carleman's integral equation and their application to contact problems.
- KAMENIARZH Ia.A.: Statically admissible stress fields in incompressible media.
- BERDICHEVSKII V.L. and SUTYRIN V.G.: The problem of the equivalent bar in the nonlinear theory of springs.
- BERNAR I.I. and OPANASOVICH V.K.: State of stress in the plate with a thin-walled inclusion along the circumferential arc.
- PARTON V.Z. and SENIK N.A.: On the application of the method of symbolic integration in the theory of piezoceramic shells.
- ROGACHEVA N.N.: On boundary conditions in the theory of piezoceramic shells, polarized along coordinate lines.
- VOLKOV L.G.: On regularity of one-dimensional elastic waves in an incompressible isotropic material.
- GOL'DSHTEIN R.V. and SPEKTOR A.A.: Variational method of analyzing spatial mixed problems of a plane cut in an elastic medium in the presence of slip and adhesion of its surfaces.
- FILIPPOVA L.M.: On the influence of initial stresses on the opening of a circular crack.
- VOROTNIKOV V.I.: On stability of motion with respect to a part of variables for continuously acting disturbances.
- KRASINSKAIA E.M.: On the stabilization of steady-state motions of mechanical systems.
- MARKEEV A.P.: On the motion of an ellipsoid on a rough plane in the presence of slip.
- PASCAL M.: Asymptotic solution of the equations of motion for a celtic stone.
- BULATOVICH R.M.: Existence of the solutions of the Hamilton-Jacobi equation in the vicinity of nondegenerate equilibrium states.
- KHAPAEV M.M. and SHINKIN V.N.: On the stability of the study of almost periodic resonance systems with respect to a part of variables.
- RUZANOVA V.N.: On stability of steady motions of dynamically symmetric rigid body at a tri- angular libration point.
- KOZLOV V.V.: Remarks concerning steady vortex motions of a continuous medium.
- GEORGESKU A. and CHETTI S.S.: Nonsteady plane poiseuille flow of a Rivlin-Ericksen fluid.
- GALANIN M.P.: On optimum control by means of a sorption process.
- IVANOV N.M., MARTYNOV A.I. and SOKOLOV N.L.: Approximate analytical method of analysis of trajectories of motion of an aircraft in the atmosphere.
