

## CONTENTS OF NEXT ISSUE

Volume 47, Issue 3, 1983

- TARLINSKII S.I.: Necessary optimality conditions in the approach game at a given instant of time.
- KURINA G.A.: Asymptotic solution of a class of singular perturbed problems of optimum control.
- ANDREEV D.V.: On stability of permanent rotations of a nonsymmetric heavy rigid body.
- MERKIN D.R.: On stability of stationary motions of the axis of a rotating rotor placed in nonlinear bearings.
- MOROZOV A.D. and SHIL'NIKOV L.P.: On nonconservative periodic systems close to two-dimensional Hamiltonian ones.
- LERMAN L.M. and UMANSKII Ia.L.: On existence of separatix loops in four-dimensional systems close to integrable Hamiltonian ones.
- LEVINA G.V. and HEPOMNIATSCHII A.A.: On regimes of mixed convection in a vertical layer with nonstationary deformable boundaries.
- SLOBODKINA F.A. and IANOVSKAIA E.K., Optimization of parameters controlling flows with a transition across the speed of sound.
- RYZHOV O.S. and TEREHT'EV E.D.: On hypersonic flow past a lifting body.
- LIPSHITS Iu.B. and MAREVTSEVA N.A. : On free expansion of three-dimensional jets of an ideal gas.
- BAUTIN S.P.: Two-dimensional efflux into vacuum of a nonhomogeneous moving gas.
- BOGOIAVLENSKII O.I.: Dynamics of a rigid body with an ellipsoidal cavity filled with a magnetic liquid.
- BERESLAVSKII E.N. and EMIKH V.N.: Problems of filtration in systems of channels at the interface of fresh water and salt water with evaporation.
- PODALKOV V.V. and ROMANOV V.A.: Deformation of an elastic anisotropic microheterogeneous halfspace.
- LAZAREV M.I.: On the solution of external boundary value problems of the theory of elasticity by the method of boundary integral equations.
- NULLER B.M. and RYVKIN M.B.; Nonsymmetric bending of a plate reinforced by a symmetric system of radial ribs.
- FIL'SHTINSKII L.A. and KHIZHNIK L.A.: Reaction of a piezoceramic shell to concentrated actions.
- ANAN'EV I.V., KALINCHUK V.V. and POLIAKOVA I.B.: On generation of waves by a vibrating stamp in a medium with nonuniform initial stresses.
- KAMENIARZH Ia.A.: On formulations of the problem of the theory of ideal placticity.
- SIMONOV I.V.: On subsonic motion of the edge of a shear crack with friction along the interface between elastic materials.
- NIKOLAEVSKII V.N.: Contour invariance of the theory of fracture of thermoelastic bodies.
- DIESPEROV V.N.: On subsonic laminar separation from the point of a kink in the profile.
- MIRONENKO E.V. and PACHEPSKII Ia.A.: Motion of ions in chemical compounds in soil solutions.
- BORODICH F.M.: Similarity in contact problems of elastic bodies.
- SARAEV L.A.: Singular approximation in the theory of elastoplastic media with microstructure.
- ARTEMOV M.A. and IVLEV D.D.: On the influence of internal viscosity mechanism on the ideally plastic behavior of the material.
