

AUTHOR TITLE / ALPHABETICAL INDEX

Vol.47, 1983

	No.	Page
ALEKSANDROV V.M. and CHEBAKOV M.I.: On the method of homogeneous solutions in mixed problems of the theory of elasticity for a truncated wedge and a ring sector.	5	639
ALESHIN N.P., KAMENSKII V.S. and MOGIL'NER L.IU.: Solution of a transcendental equation encountered in diffraction problems.	1	139
ANAN'EV I.V., KALINCHUK V.V. and POLIAKOVA I.B.: On wave excitation by a vibrating stamp in a medium with inhomogeneous initial stresses.	3	408
ANDREEV D.V.: On the stability of the permanent rotations of an asymmetric heavy rigid body.	3	316
ANDRIANOV I.V.: On the theory of Berger plates.	1	142
ANTONETS A.V. and DUBINSKII A.V.: A method of calculating the aerodynamic characteristics of bodies on the basis of invariant relations of the theory of local interaction.	5	700
ARTEMOV M.A. and IVLEV D.D.: On the effect of the internal viscosity mechanism on the perfectly plastic behaviour of materials.	3	446
ARUTIUNIAN N.KH. and NAZAROV S.A.: On singularities of the stress function at the corner points of the transverse cross section of a twisted bar with a thin reinforcing layer.	1	94
ASLANIAN A.G.: On the remainder terms in formulas for the frequency distribution of shell oscillations.	4	575
BABESHKO V.A., SELEZNEV M.G., SELEZNEVA T.N. and SOKOLOV V.P.: On a method of studying steady-state oscillations of an elastic half-space containing a cavity.	1	88
BASAK N.K. and DOMBROVSKII G.A.: On the solution of problems of filtration with a limit gradient.	6	751
BASHKIROV A.G. and KOROL'KOV G.A.: On the surface viscosity at the boundary between phases.	6	832
BAUTIN S.P.: Two-dimensional discharge into vacuum of a moving inhomogeneous gas.	3	366
BEDRIKOVETSKII P.G. and LUR'E M.V.: Stability and admissibility of discontinuities in the systems of equations of two-phase filtration.	4	484
BELINSKII B.P.: Diffraction of a plane wave by an infinite elastic plate stiffened by a doubly periodic set of rigid ribs.	6	767
BELOTSEKOVSKII S.M., LIFANOV I.K. and SOLDATOV M.M.: The method of discrete singularities in plane problems of the theory of elasticity.	5	632
BERDICHEVSKII V.L. and STAROSEL'SKII L.A.: On the theory of curvilinear Timoshenko-type rods.	6	809
BERDICHEVSKII V.L. and SUTYRIN V.G.: Problem of an equivalent rod in non-linear theory of springs.	2	197
BERESLAVSKII E.N. and EMIKH V.N.: Problem of filtration from a system of channels at the border zone separating fresh waters from saline waters lying below, with evaporation.	3	376
BERNAR I.I. and OPANASOVICH V.K.: State of stress of plate with a thin-walled inclusion along the arc of a circle.	2	206
BERSHADSKII A.G.: Effect of the small forced oscillations on the stability of the steady motion of fluid.	1	136
BOGAN I.U.A.: Certain plane contact problems of elasticity theory for strongly anisotropic media.	1	116
BOGAN I.U.A.: Two boundary value problems for a strongly anisotropic inhomogeneous elastic ring.	6	792
BOGDANOVA E.V. and RYZHOV O.S.: On free oscillations of a viscous incompressible fluid in semi-infinite channel.	1	44
BOGOIAVLENSKII O.I.: Dynamics of a solid with an ellipsoidal cavity filled with a magnetic fluid.	3	371
BORODICH F.M.: Similarity in the problem of contact between elastic bodies.	3	440
BRATUS'A.S.: Design of circular cylindrical shells of minimum weight with fixed natural oscillation frequencies.	5	650
BRATUS'A.S. and SEIRANIAN A.P.: Bimodal solutions in eigenvalue optimization problems	4	451

	No.	Page
BULATOVICH R.M.: Existence of solutions of the Hamilton - Jacobi equation in the neighbourhood of non-degenerate equilibrium position.	2	277
BULATOVICH R.M.: The Hamilton- Jacobi equation in domains of possible motions with a boundary.	5	588
BYKOVTSSEV A.S.: On the conditions for the onset of motion of two collinear dislocation discontinuities.	4	572
CHEBAKOV M.I.: see V.M. ALEKSANDROV	5	639
CHEREPANOV G.P.: Fracture mechanics of multilayered shells. Theory of delamination cracks.	5	669
CHERNYAEV A.P.: Filtration in inhomogeneous curved strata with a certain class permeability.	6	835
CHETTI S.S.: see A. GEORGESKU	2	290
DIESPEROV V.N.: On subsonic laminar separation from the discontinuity edge of a profile.	3	432
DIMENTBERG M.F.: Exact solutions of the Fokker-Planck-Kolmogorov equation for certain multidimensional dynamic systems.	4	458
DOMBROVSKII G.A.: see N.K. BASAK	6	751
DUBINSKII A.V.: see A.V. ANTONETS	5	700
EMIKH V.N.: see E.N. BERESLAVSKII	3	376
ERMOLOV A.N.: On a dynamic management decentralization problem.	1	1
ESKIN L.D.: Relaxation in dissipative mechanical systems	5	605
FILIPPOVA L.M.: On the effect of initial stresses on the opening of a circular crack.	2	240
FIL'SHTINSKII L.A. and KHIZHNIAK L.A.: Reaction of a piezoceramic shell to concentrated effects.	3	403
FORMAL'SKII A.M.: On the corner points of the boundaries of region of attainability.	4	466
FUFAEV N.A.: A sphere rolling on a horizontal rotating plane.	1	27
GALANIN M.P.: On the optimal control of a sorption process.	2	293
GALITSYN A.S.: On thermomechanical state of an underground shaft filled with a readily mixing liquid.	4	554
GEORGESKU A. and CHETTI S.S.: The unstable plane motion of the Poiseuille type for Rivlin-Eriksen fluid.	2	290
GLUSHKOV E.V.: Energy distribution of a surface source in an inhomogeneous half-space.	1	70
GOLOVIN A.M. and ZHIVOTIAGIN A.F.: Unsteady convection mass transfer inside a drop in the presence of volume chemical reaction.	5	625
GOLUBKIN V.N.: On the asymptotic theory of the three-dimensional flow of a hypersonic stream of radiating gas around a body.	4	493
GOL'DSHTEIN R.V. and SPECTOR A.A.: Variational method of investigation of three-dimensional mixed problems of a plane cut in an elastic medium in the presence of slip and adhesion of its surfaces.	2	232
GOL'TSER IA.M.: Continuous normal form of a class of non-autonomous parametrically-perturbed systems and its application.	1	14
GOMAN O.G.: On the Kolosov-Muskhelishvili analog for the three-dimensional state of stress.	1	65
GRIGORENKO N.L.: The method of pursuit by several controlled objects of different types.	6	714
GRITSENKO S.I. and ZELENTOV V.B.: Mixed problems for a strip partially coupled to a rigid base.	1	82
GORODTSOV V.A.: Evolution of axisymmetric vorticity distributions in an ideal incompressible stratified liquid.	4	479
GUPALO IU.P. and OSTRIK V.M.: On stationary conditions of work of chemical reactors with longitudinal and transverse mixing.	1	51
GURIN V.B. and TEREENT'EVE.D.: On the propagation of non-steady perturbations in a boundary layer with self-induced pressure.	5	618

	No.	Page
IANOVSKAIA E.K.: see F.A. SLOBODKINA	3	348
IARIN A.L.: On generation of auto-oscillations during fibers formation.	1	59
IVANOV M.N., MARTYNOV A.I. and SOKOLOV N.L.: Approximate analytical method of calculating the trajectories of an aircraft in the atmosphere.	2	296
IVLEV D.D.: see M.A. ARTEMOV	3	446
KALINCHUK V.V.: see I.V. ANAN'EV.	3	408
KAMENIARZH IA.A.: Statically admissible stress fields in incompressible media.	2	188
KAMENIARZH IA.A.: On formulations of the problem of the theory of plasticity.	3	414
KAMENSKII V.S.: see N.P. ALESHIN	1	139
KANAUN S.K.: Correlation function of the stress field in an elastic medium with point defects.	4	533
KAPLAN L.E.: see A.I. VESNITSKI	5	692
KHAPAEV M.M. and SHINKIN V.N.: On investigating resonant almost-periodic systems for stability with respect to a part of the variables.	2	281
KHARLAMOV M.P.: Bifurcation of common levels of first integrals of the Kovalevskaya problem.	6	737
KHIZHNIAK L.A.: see L.A. FIL'SHTINSKII	3	403
KHLUDNEV A.M.: Problem on the contact of two elastic plates.	1	110
KHLUDNEV A.M.: The problem of the contact between a linear elastic body and elastic and rigid bodies (a variational approach)	6	796
KHOLMATOV T.: Methods of solving spatial problems of the mechanics of a deformable solid in terms of stresses.	6	788
KHRISANOV S.M.: On the Liapunov exponents of a linear system with Markov coefficients.	1	9
KOROL'KOV G.A.: see A.G. BASHKIROV	6	832
KOZLOV V.V.: Notes on steady vortex motions of continuous medium.	2	288
KRAIKO A.N. and SULAIMANOVA S.M.: Two-fluid flows of a mixture of a gas and solid particles with "films" and "filaments" appearing in flows past impermeable surfaces.	4	507
KRASINSKAIA E.M.: On the stabilization of steady-state motions of mechanical systems.	2	253
KRIAZHIMSKII A.V., MAKSIMOV V.I. and OSIPOV IU.S.: On positional simulation in dynamic systems.	6	709
KUDISH I.I.: On the formulation and investigation of a spatial contact problem for elastic bodies under mixed friction conditions.	6	801
KURINA G.A.: Asymptotic solution of one class of singularly perturbed optimal control problems.	3	309
LAZAREV M.I.: On solving external boundary value problems of the theory of elasticity using the method of boundary integral equations.	3	389
LEONOV G.A.: On the global stability of the Lorentz system.	5	690
LEONOV M.IA. and NISNEVICH E.B.: Inverse problem of plane plasticity theory.	1	126
LEONOV M.IA. and PEREDERII V.D.: Rigidity in the elastoplastic torsion of simple rods.	6	817
LERMAN L.M. and UMANSKII IA.L.: On the existence of separatrix loops in four-dimensional systems similar to the integrable Hamiltonian systems.	3	335
LEVINA G.V. and NEPOMNIASHCHII A.A.: On mixed convection modes in a vertical layer with unsteadily deformable boundaries.	3	341
LIFANOV I.K.: see S.M. BELOTSERKOVSKII	5	632
LIFSHITS IU.B. and MAREVTSEVA N.A.: On the free expansion of three-dimensional streams of perfect gas.	3	362
LIN'KOV A.M.: Plane problems of the static loading of a piecewise homogeneous linearly elastic medium.	4	527
LOBANOV E.V.: Unsteady propagation of a disk crack in a transversely isotropic medium.	5	679
LUR'E M.V.: see P.G. BEDRIKOVETSKII	4	484
LUSHNIKOV A.A. and PISKUNOV V.N.: Analytic solutions in the theory of coagulating systems with sinks.	6	743

	No.	Page
MAKOVENKO S.IA.: Certain versions of the formulation of problems of non-linear elasticity in terms of stresses.	6	775
MAKSINMV V.I.: see A.V. KRIAZHIMSKII.	6	709
MANUILOVICH S.V. and TEREENT'EV E.D.: On the influence of heat transfer and blowing on the structure of laminar hypersonic flow behind a body.	4	517
MANZHIROV A.V.: Axisymmetric contact problems for non-uniformly aging layered viscoelastic foundations.	4	558
MARKEEV A.P.: On the motion of an ellipsoid on a rough surface with slippage.	2	260
MARKEEV A.P.: On the dynamics of a solid on an absolutely rough plane.	4	473
MARKEEV A.P. and MOSHCHUK N.K.: Qualitative analysis of motion of a heavy solid body on a smooth horizontal plane.	1	22
MAREVTSEVA N.A.: see I.U.B. LIFSHITS.	3	362
MARTYNOV A.I.: see IVANOV M.N.	2	139
MERKIN D.R.: On the stability of stationary motions of rotating rotor axis mounted on non-linear bearings.	3	321
MIRONENKO E.V. and PACHEPSKII IA.A.: The motion of ions and chemical compounds in soil solutions.	3	436
MKHITARIAN S.M.: On certain spectral relationships associated with the Carleman integral equation and their applications to contact problems.	2	180
MIKHAILOV S.E.: Solution of problems on the anti-plane deformation of elastic bodies with corner points by the method of integral equations.	6	783
MOGIL'NER L.IU.: see N.P. ALESHIN.	1	139
MOROZOV A.D. and SHIL'NIKOV L.P.: On non-conservative periodic systems close to two-dimensional Hamiltonian.	3	327
MOSHCHUK N.K.: see A.P. MARKEEV	1	22
MOSHCHUK N.K.: On the motion of Chaplygin's sphere on a horizontal plane.	6	733
NAZAROV S.A.: see N.KH. ARUTIUNIAN.	1	94
NAZAROV S.A.: see V.P. ZHURAVLEV	2	162
NEPOMNIASHCHII A.A.: see G.V. LEVINA.	3	341
NI A.L.: Non-linear resonant oscillations of a gas in a tube under the action of a periodically varying pressure.	4	498
NIKOLAEVSKII V.N.: Contour invariants in the theory of fracture of thermoelastic bodies.	3	428
NISNEVICH E.B.: see M.IA. LEONOV	1	126
NOVOZHILOV V.V.: Steady state boundary flows in the light of the generalized Karman theory.	4	566
NULLER B.M. and RYVKIN M.B.: Non-symmetric bending of a plate reinforced by a symmetric system of radial ribs.	3	395
OPANASOVICH V.K.: see I.I. BERNAR	2	206
OSIPOV I.U.S.: see A.V. KRIAZHIMSKII	6	709
OSTRIK V.M.: see I.U.P. GUPALO	1	51
PACHEPSKII IA.A.: E.V. MIRONENKO	3	436
PARTON V.Z. and SENIK N.A.: On the application of the method of symbolic integration in the theory of piezoceramic shells.	2	214
PASCAL M.: Asymptotic solution of the equations of motion for a celtic stone.	2	269
PASHKOV A.G. and TEREKHOV S.A.: On a game of optimal pursuit of an object by two others.	6	720
PEKUROVSKII L.E., PORUCHNIKOV V.B. and SOZONENKO I.U.A.: Acoustic wave interaction with bodies covered by a thin compressible layer.	5	663
PEL'TSS.P.: Vibration of a cylinder on an elastic layer partly fixed to a rigid base.	5	645
PEREDERII V.D.: see M.IA. LEONOV	6	817
PETROV A.G.: Hamilton's principle and certain problems of dynamics of perfect fluid.	1	30
PISKUNOV V.N.: see A.A. LUSHNIKOV	6	743
PLIS V.I.: Diffraction of Kelvin waves in a channel with a semi-infinite wall.	6	756
POBEDRIA B.E.: On the theory of viscoelasticity of structurally inhomogeneous media.	1	104
PODALKOV V.V. and ROMANOV V.A.: Deformation of an elastic anisotropic micro-inhomogeneous half-space.	3	383

	No.	Page
PODDUBNYAK A.P.: High-frequency asymptotic forms of refracted and transmitted waves when sound is scattered by a hollow elastic sphere filled with liquid.	6	761
