

# **JOURNAL OF APPLIED MATHEMATICS AND MECHANICS**

## **CONTENTS OF NEXT ISSUE**

### **Volume 58, No. 6, 1994**

- V. M. MATROSOV and I. A. FINOGENKO: On the solvability of the equations of motion of mechanical systems with sliding friction
- Ye. B. KUZNETSOV and V. I. SHALASHILIN: Cauchy's problem for mechanical systems with a finite number of degrees of freedom as a problem of continuation with respect to the best parameter
- A. A. VORONIN: Asymptotic properties of the solutions of the equations of motion for gyroscopic systems
- G. N. MIL'SHTEIN and O. E. SOLOV'EVA: Filter construction in non-linear determinate systems
- Yu. K. ZOTOV and A. V. TIMOFEYEV: Methods of motion stabilization of reversible dynamic systems by the use of non-linear canonical transformations
- V. I. UKHOBOTOV: Region of indifference in single-type differential games of restraint for a limited period of time
- V. M. ZHURAVLEV: On a new representation of two-dimensional equations of the dynamics of an incompressible liquid
- V. N. DIESPEROV: Some solutions of the von Karman equations describing the trans-sonic flow past a profile kink with a curvilinear generator
- O. Yu. DINARIEV: Multicomponent stationary filtration flows with phase transitions
- A. S. BRATUS': On solution properties of a class of isoperimetric problems of stability optimization
- A. L. GOL'DENVEIZER: Algorithms for asymptotic construction of a linear, two-dimensional theory of thin shells and Saint Venant's principle
- A. V. BAUL: On the influence of Batdorf's parameter on the postcritical behaviour of an axially compressed, incomplete cylindrical shell
- A. I. MANEVICH: Interaction of coupled modes for non-linear free bending vibrations of a circular ring
- N. V. GENERALOVA and Ye. V. KOVALENKO: On contact interaction of a strip-like stamp with a linearly deforming foundation across a covering of variable thickness
- M. V. DERYABIN: On realization of non-holding constraints
- A. D. MYSHKIS: Systems with after-effect and relaxation
- S. P. SOSNITSKII: On Hamilton's action as functions of phase variables
- E. L. AMROMIN: Radius estimate of viscous vortex core
- B. V. BUDASEV, N. F. MOROZOV and M. A. NARBUT: Torsion of a circular cone for static and dynamic loading
- K. Yu. VOLOKH: On classical plate theory
- A. A. LOKSHIN: On non-linear reflection of a plane wave in an elastic medium
