

# JOURNAL OF APPLIED MATHEMATICS AND MECHANICS

## CONTENTS OF NEXT ISSUE

### Volume 61, No. 1, 1997

- NIKOLAI YEGOROVICH ZHUKOVSKII, 150th anniversary
- V. F. ZHURAVLEV: A new algorithm of the Birkhoff normalization of Hamiltonian systems
- A. L. NEISHTADT and V. V. SIDORENKO: The stability loss delay in Ziegler's system
- A. V. BORISOV and A. V. TSYGVINTSOV: Kovalevskii method in rigid body dynamics
- A. T. ZAREMBA: Attitude control of a rigid body under parameter uncertainty of dynamic equations
- A. S. ANDREYEV and S. P. BEZGLASNYI: On the stabilization of controlled systems with guaranteed estimate of control quality
- I. M. ANAN'YEVSKII: Control of a mechanical system with unknown parameters by a bounded force
- V. I. VOROTNIKOV: On construction of game restricted controls for non-linear systems
- V. A. KUZ'MINYKH: On the relative orbits global regularization in a version of the  $N$ -body problem
- D. F. ABZALILOV, L. A. AKSENT'YEV and N. B. IL'INSKII: An inverse boundary-value problem for an airfoil with a suction slot
- V. I. ZUBOV: Optimal airfoils under low angles of attack in a supersonic gas flow
- L. M. ZIGANGAREYEVA and O. M. KISELEV: On semi-infinite axially symmetric bodies achieving maximum values of the critical Mach number
- S. A. VAKULENKO and I. A. MOLOTKOV: Initial stage of the evolution of displacement fronts in the non-linear filtration problem
- V. A. GORODTSOV and V. M. YENTOV: Instability of displacement fronts of non-Newtonian fluids in a Hele-Shaw cell
- L. I. ZAICHIK: Modelling of dynamics of particles in a non-uniform turbulent flow field based on an equation for the probability density function
- N. I. GVOZDOVSKAYA and A. G. KULIKOVSKII: The electromagnetic shock waves and their structure in anisotropic magnets
- V. I. GORBACHEV and B. Ye. POBEDRYA: Effective characteristics in inhomogeneous media
- P. Ya. KOCHINA: Zhukovskii's function and some problems of underground hydromechanics
- S. V. MELESHKO: The three-dimensional steady non-isentropic gas flows of double wave type
- A. I. RYLOV: On the monotonicity properties of some axisymmetric subsonic flows
- S. D. ALGAZIN and I. A. KIIKO: Numerical-analytical analysis of flutter of a plate of arbitrary shape in the plane
