

# JOURNAL OF APPLIED MATHEMATICS AND MECHANICS

## CONTENTS OF NEXT ISSUE

### Volume 64, No. 4, 2000

- R. I. NIGMATULLIN (60th birthday)
- F. L. CHERNOUS'KO: Wave-like motions of a linkage over a horizontal plane
- L. D. AKULENKO and G. V. KOSTIN: Analytical synthesis of optimal time control in the system of third order
- A. Yu. ALEKSANDROV: On the stability of a certain class of non-linear systems
- N. V. KHLYSTUNOV: Griolo-type precession motion of a heavy rigid body in a fluid
- A. M. TER-KRIKOROV: About the equation of axially symmetric buoyancy oscillations in an ideal fluid
- V. A. BATHISHCHEV and Ye. V. KHOROSHUNOVA: Onset of rotational modes of thermo-capillary inhomogeneous fluid flow in a layer
- S. V. GOLOVIN: On two-dimensional motions of a gas with a special adiabatic exponent
- V. A. KUKUSHKIN: Optimal thickness estimates form some processes of unlimited compression of a gas
- V. S. GALKIN: The Burnett equations for multicomponent mixtures of polyatomic gases
- G. Ye. YAKUNINA: On the optimum non-conical and non-symmetrical three-dimensional shapes
- V. A. GORODTSOV: The effect of local concentrating in one-dimensional hydrodynamics
- I. S. ZHUKOVA and A. I. SAICHEV: Clusters localization of floating particles on the surface of turbulent flow
- A. D. KNON'KIN: On Taylor's and hyperbolic models of longitudinal dispersion in convection-diffusion processes
- Yu. G. GUBAREV and M.-B. A. NEGMATOV: On the instability of states of rest of the viscous ideally conduction compressible medium including the magnetic field
- A. B. KISELEV, V. F. NIKITIN, N. N. SMIRNOV and M. V. YUMASHEV: Unsteady traffic flow on a ring highway
- G. Z. SHARAFUTDINOV: Application of the complex variable function theory to some 3D problems of the theory of elasticity
- V. Ya. TERESHCHENKO: On the energy approximations for the solutions of the first problem in linear elasticity
- E. L. AERO: Non-linear theory of elastic microshear in periodic structures. The instability of uniform deformation
- I. I. ARGATOV: Asymptotic solution of the problem of the pressure of a solid on a membrane
- V. M. ALEKSANDROV and A. A. SHMATKOVA: A modified Multhopp-Kalandiya method in the contact problem for a slider bearing
