Announcement

A. Yu. Ishlinskii (90th birthday)

V. V. BELETSKII: On a problem suggested by A. Yu. Ishlinskii

A. P. MARKEYEV: On the stability of Grioli's precession

G. V. GORR: Precessions motions in dynamics of a rigid body and dynamics of systems of coupled rigid bodies

L. D. AKULENKO and S. V. NESTEROV: Frequency-parametric analysis of natural vibrations of non-homogeneous beams

Yu. F. GOLUBEV: Robot equilibrist on a cylinder

V. V. KOZLOV and D. A. ONISHCHENKO: Motion of a rigid body containing a moving point mass in an unbounded ideal fluid

V. A. GORODTSOV: Anomalous diffusion of wave perturbations in hydrodynamical systems

I. G. GORYACHEVA: The analysis of a rolling friction by A. Yu. Ishlinskii and his followers

V. M. ALEKSANDROV: The asymptotic solution of an axisymmetric contact problem for an elastic layer made of an incompressible material

A. A. YEVTUSHENKO and Ye. V. KOVALENKO: Axisymmetric contact problem taking account of steady heat generation due to sliding friction

E. SCARPETTA and M. A. SUMBATYAN: On-mode approximation for the propagation of a plane longitudinal wave through an elastic solid with a periodic array of rectangular defects

V. G. BAZHENOV, A. M. BRAGOV, V. L. KOTOV and A. V. KOCHETKOV: Investigating bodies of revolution striking upon and penetrating soft soils

International Congress "Third Polyakov Lecture"
