Announcement

Yu. K. ZOTOV: On the linear stabilization of programmed motions of non-linear controllable dynamic systems

Yu. G. MARTYNENKO and A. M. FORMAL'SKII: On the monocycle control theory

O. N. KIRILLOV and A. P. SEYRANIAN: Effect of small internal and external damping on the stability of distributed non-conservative systems

S. P. SOSNISKII: On the asymptotic stability of equilibrium of parametrically excited systems

V. D. LUK'YANOV and G. L. NIKITIN: The reflection of normal waves from an infinite system of barriers in a waveguide

I. Sh. AKHATOV and S. I. KONOVALOVA: Regular and chaotic dynamics of a spherical bubble

S. S. MEDVEDEV, V. N. UTESINOV, and O. M. CHURMAYEV: Statement and solution of the problem of erosion and deposition in opened channels for loose ground

N. S. BAKHVALOV and M. E. EGLIT: On the equations of the higher order of accuracy for vibrations of thin plates

A. Yu. ZEMLYANOVA and V. V. SILVESTROV: A problem of a circular patch

I. T. DENYSYUK: Dynamic thermoelastic fields near moving non-smooth interfaces

V. Ye. VYALKOV, V. A. IVANOV and V. N. PAYMUSHIN: Buckling modes and critical loads of a sandwich spherical shell under uniform external pressure
