### JOURNAL OF APPLIED MATHEMATICS AND MECHANICS CONTENTS OF NEXT ISSUE Volume 72, No. 4, 2008

#### Announcement

- A.P. IVANOV: Conditions of unique solvability of equations of dynamical systems with friction
- S.G. KRYZHEVICH: Grazing bifurcation and chaotic oscillations of single-degree-of-freedom vibroimpact systems
- Yu.K. ZOTOV: Linear stabilization of programmed motions of non-linear controlled dynamical systems under parametric disturbances
- A.A. SALIYEV, D.V. TARLAKOVSKII and A.M. SHUKUROV: The unsteady wave propagation from a spherical cavity in acoustic layer
- I.V. STUROVA: Effect of bottom topography on the unsteady behaviour of an elastic plate floating on shallow water
- L.A. TKACHEVA: Impact of a box with an elastic bottom in shallow water
- I.M. BAYANOV, I.R. KHAMIDULLIN and V.Sh. SHAGAPOV: Self-similar problem of diffusion mixing of vapour droplet systems
- V.V. POKAZEYEV: Flutter of elastic or viscoelastic cantilevered fixed strip
- L.A. AGALOVYAN and R.S. GEVORGYAN: Asymptotic solution of the first boundary-value problem of the elastic theory for the forced vibrations of an isotropic strip
- S.M. AIZIKOVICH, L.I. KRENEV and I.S. TRUBCHIK: The strain state of a half-space with a gradient elastic coating under the action of arbitrary axisymmetric loading
- V.M. MAL'KOV and Yu.V. MAL'KOVA: An analysis of stress singularity in the non-linear Flamant problem for some material models
- A.A. LOKTEV: Dynamic contact of the impactor and elastic orthotropic plate with thermoelastic waves taken into account
- N.M. ROMANOVA and U.A. USTINOV: The Saint-Venant bending problem of a cylinder with helical anisotropy
- V.M. ALEKSANDROV and V.Yu. SALAMATOVA: Contact problem for a strip interacting with an elastic half-space
- A.V. MARK: Uniform motion of rectangular and parabolic punches of the viscoelastic layer
- A.F. KRIVOI and G.Ya. POPOV: The interface tunnel cracks in the composite anisotropic half-spaces
