

## Correction

---

**Bubble Temperature Measurements on Binary Mixtures Formed by Cyclohexane at 94.7 kPa**, T. E. Vittal Prasad, S. Suchil Kumar, M. Bhanu Pratap Goud, P. Anil Kumar, A. Srinivas, P. Subrahmaneswara Reddy and D. H. L. Prasad\*, *J. Chem. Eng. Data* **2003**, *48*, 351–353.

The above referenced paper contained an error that concerns the eighth binary mixture, namely, cyclohexane (1) + morpholine (2). The changes necessitated are:

In the abstract, the compound after *N,N*-dimethylformamide should be morpholine.

In Table 1, the last compound should be morpholine.

In Table 2, the caption for the last mixture should be cyclohexane (1) + morpholine (2).

In Table 3, the entries in the first two columns of the last row should be morpholine and 14, respectively.

In Table 4, the last system should be cyclohexane (1) + morpholine (2).
