

Discovering the Aloha State

DAVID S. VOGELS III

Hawaii is the most idyllic location in recent memory for the AAO's annual meeting. This year's innovation on the neighbor islands makes the session especially attractive for orthodontists and their families.

The annual JCO convention preview will highlight the attractions of our most beautiful state. (Click here

Travel Information

Hawaii consists of six major islands (from east to west): Kauai, Oahu, Molokai, Lanai, Maui, and Hawaii. Connecticut, but their tropical climate is nothing like New England's. With an average high temperature of 75 degrees, a meeting may be the occasional gusty tradewinds and accompanying high surf.

Most convention-goers will be entering the state through Honolulu International Airport. The Airport Waikiki is minutes to the hotels on Waikiki Beach for an adult charge of \$8 one-way, \$13 round-trip (extra charges for baggage, way, and city bus service is also available (Fig. 2).

Travelers to the follow-up sessions on other islands will be flying from the Interisland Terminal to Kahului (Kauai). All three have direct flights to the West Coast. Ground transportation is available at each airport to take you to your hotel.

Historic and Cultural Attractions

May Day is celebrated as Lei Day throughout the state, with Mother's Day orchid shows scheduled on the

No visitor to Oahu should miss the memorials and naval exhibits at Pearl Harbor, including the sunken Arizona submarine. Tour tickets for the Arizona (open daily 8 a.m. to 3 p.m.) are given out on a first-come, first-served basis, and security is heavy.

In Honolulu, the **Hawaii Maritime Center** goes farther back in Polynesian naval history, to the region's **Palace** and the **Kawaiahao Church**, known as Honolulu's Westminster Abbey. The historic **Bishop Museum** planetarium show scheduled for May 5.

An interesting exhibit called "Surf Culture: Surf Photography and Board Design in Hawaii" is scheduled for May 5. It features displays of contemporary paintings and glass art. The **Honolulu Academy of Arts** showcases the annual Doris Duke's fabulous Shangri La home, overlooking Diamond Head (get tickets early). Other outdoor attractions include **Gardens**, the **Dole Plantation**, the **Honolulu Zoo**, the **Waikiki Aquarium**, and **Sea Life Park**.

Music fans who are staying over in Oahu will want to take in the **Honolulu Symphony's** "Evening with Oscar-winning score to *Crouching Tiger, Hidden Dragon*, as well as his stunning Water Percussion Concert.

Hawaii's aviation history is showcased in the **Paper Airplane Museum** near the Kahului Airport in Maui. **Mission**. Of course, the entire state is full of natural wonders if you simply rent a car and drive around. The **Waialeale** on Niihau Island and the **National Tropical Botanical Garden** on Kauai (Fig. 3).

Restaurants

Go to a luau if you must, but don't pass up the exciting Pacific Rim cuisine that has been developed by Lahaina (Maui). For a culinary overview, try the fourth annual **Taste of the Stars**, featuring many of Hawaii's best chefs.

The top tables in Honolulu, on a par with those of any major city in the country, are **Alan Wong's Restaurant**, **Rise, L'Uraku**, and the Halekulani Hotel's Continental pair of **La Mer** (jackets required) and **Orchids**. If you're in the rest of the country, and all provide a dependable, if noisy, fare of innovative Asian-fusion cuisine.

On Maui, there are good restaurants at the **Kapalua Bay Hotel** complex and at the Wailea resorts, but the Kaanapali resort. Top choices are **David Paul's Lahaina Grill**, **Gerard's**, and **Pacific's O.**

The Big Island lags behind in culinary excellence; the best restaurant by far is the **Canoe House** at the Mauna Kea for a spectacular view of the Pacific. **The Batik** at the **Mauna Kea Beach Hotel** has become rather stodgy. **Grille** in the neighboring **Hapuna Beach Prince Hotel**.

On Kauai, the notable eateries are found in the two major resort complexes--Princeville (north) and Poipu (south).

Shopping

The more established resort areas, such as Waikiki, Lahaina, Kaanapali, and Kona (Big Island), run toward modern conveniences such as Costco and Home Depot springing up everywhere. If you need flower shirts, you'll find them everywhere.

More serious shoppers in the Waikiki area can choose from among **Ala Moana**, the **Aloha Tower**, **DFS King's Village**, the **Royal Hawaiian Shopping Center**, the **Victoria Ward Centers**, and the **Waikiki Mall**.

Expeditions and Recreation

Hawaiian adventures are innumerable; this trip will be a great opportunity either to pursue favorite pastimes on the AAO tours, or arrange activities in advance with your hotel concierge (Fig. 4).

Ocean activities include deep-sea fishing, glass-bottom boats and submarines, and various cruises (a sunbather's paradise); more experienced divers can complete their deep-water certification. Tropical fish are plentiful. Beaches to avoid the waves. Two of the best beaches are at the Kapalua Bay Hotel (Maui) and the Mauna Kea Beach Hotel (Big Island).

Inland activities such as horseback riding, hiking, and cycling can be indulged on any island. The best way to see the volcanoes, is on one of the ubiquitous helicopter tours.

Tennis players will find well-groomed courts at every hotel; among the most beautiful are the tennis gardens at the Mauna Kea Beach Hotel in the morning to avoid the heat and wind. And if you're weary from all this exercise, many resorts have swimming pools.

Two of the smaller islands, Lanai and Molokai, are jewels in their own right, accessible by either interisland ferries or the beachfront **Mane Bay Hotel**, and one major town, Lanai City. The top sightseeing attraction is Shipwreck **Kalaupapa Settlement** (now only a historic site), has one town, Kaunakakai, and abundant natural beauty.

Golf

Golf deserves its own heading in a state for which the sport must have been invented. Beginners and scra in Hawaii, but temperatures are never uncomfortable. A good idea on any course is to ask a local which v which can make putting an adventure.

In the Honolulu area, start with the scenic **Ko Olina Golf Club**, a Ted Robinson design, or the windy an tournament. Near Pearl Harbor are two other good layouts, the 27-hole **Hawaii Prince** and **New Ewa Be** outstanding courses at the **Turtle Bay Resort**, with the Arnold Palmer design preferred over Greg Fazio'

The best trio of courses on Maui, and perhaps in the state, is found at Kapalua. If you' ve never hit a 300 mountainous **Plantation Course**, home of the PGA' s tou opening Mercedes Championship. With the V greens will be lightning- fast. Locals tout the **Village Course**, which has plenty of variety, but the gem of at Kapalua that plays over the ocean, is a fair test for long and short hitters alike. The **Wailea Golf Club** Game; they are somewhat dated, but have magnificent views. The **Kaanapali North and South** courses

Robert Trent Jones' s venerable **Mauna Kea Golf Course** (Fig. 5) has pride of place on the Big Island, b **Course** is more friendly and less windy. The immaculate **Mauna Lani North Course** is the best bet on t currently under construction, there are two passable temporary holes, and the rest of the course will take : lying more exposed to the ocean breezes. If you happen to be staying at the Four Seasons Resort near Ko

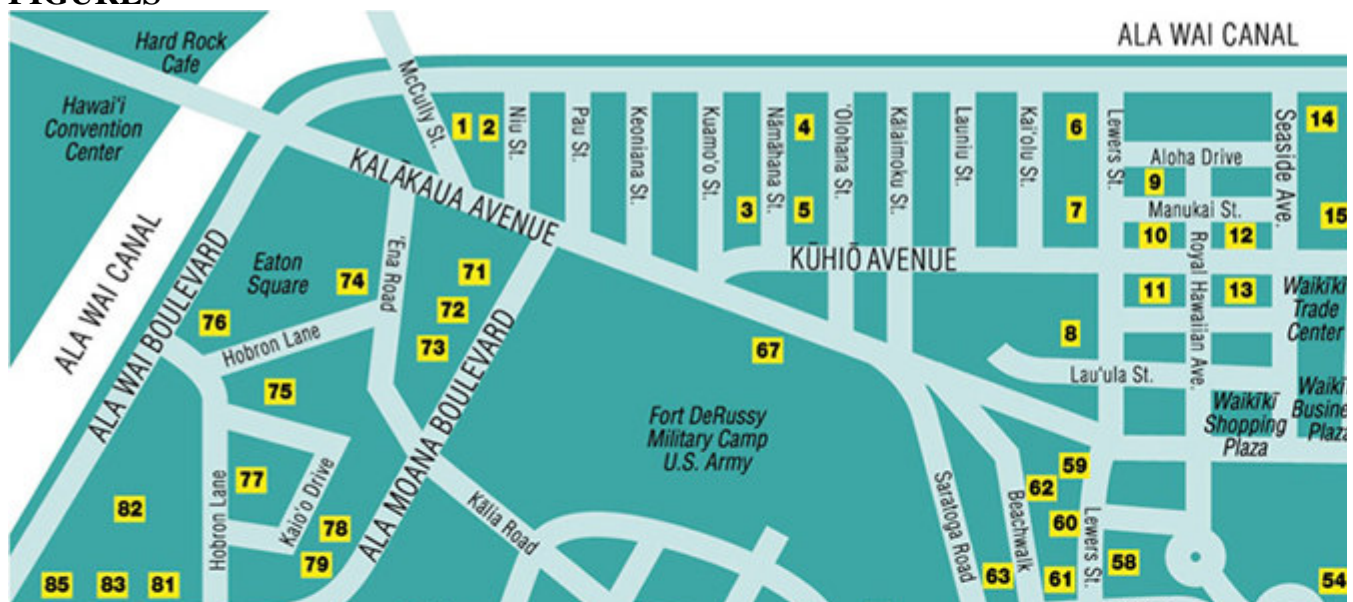

On Kauai, the most notable course in the AAO meeting area is the scenic, wind-blown **Poipu Bay Golf C** **Kauai Lagoons Kiele Course** and its sister **Mokihana Course**. The best tracks on the island, however, : top-rated **Prince Course**. Be prepared for a little drizzle at these stunning upland layouts.
