

Continued from outside back cover

- 8699 **Multidimensional upwinding for incompressible flows based on characteristics**
K. Zamzamian and S.E. Razavi
- 8714 **Simulating the dynamical friction force on ions due to a briefly co-propagating electron beam**
G.I. Bell, D.L. Bruhwiler, A. Fedotov, A. Sobol, R.S. Busby, P. Stoltz, D.T. Abell,
P. Messmer, I. Ben-Zvi and V. Litvinenko
- 8736 **Time-reversibility of the Euler equations as a benchmark for energy conserving schemes**
M. Duponcheel, P. Orlandi and G. Winckelmans
- 8753 **Stable and accurate wave-propagation in discontinuous media**
K. Mattsson, F. Ham and G. Iaccarino
