

## Announcements

### Third GAMM Conference on Numerical Methods in Fluid Mechanics at the DFVLR, Köln (Cologne), Federal Republic of Germany, October 10–12, 1979

The GAMM Committee for Numerical Methods in Fluid Mechanics organizes its third conference on the application of numerical methods to fluid mechanical problems in aerodynamics, astrophysics, biology, meteorology, nuclear reactor technology, oceanography, etc.

Deadline for abstracts (one page, two pages at maximum) is March 15, 1979. The proceedings of the conference will be published by the Vieweg Verlag in the new series "Notes on Numerical Fluid Mechanics."

Further information and registration forms can be obtained from

Dr.-Ing. E. H. Hirschel  
Chairman GAMM Conference  
DFVLR-Institut für Angewandte Gasdynamik  
Linder Höhe  
D-5000 Köln 90  
Federal Republic of Germany

Tel.: (02203)6012345  
Telex: 8874410 (dfvw d)

### The Second International Symposium on Innovative Numerical Analysis in Applied Engineering Science

The Second International Symposium on Innovative Numerical Analysis in Applied Engineering Science will be held June 16–20, 1980, at the École Polytechnique de Montreal in Montreal, Canada. Papers are solicited in all areas of engineering science such as solid and fluid mechanics, electrical engineering, acoustics, etc., with emphasis on "non-standard" numerical analysis. Papers on innovative numerical analysis which emphasize technology transfer topics, hybridization of analysis methods, and "new" technology are strongly encouraged.

Extended abstracts of approximately 1000 words, in French or English, are required by March 15, 1979. Final accepted papers of up to 10 pages will be required

by December 15, 1979, for publication in the symposium proceedings. Five copies of each abstract should be sent to

Dr. A. Chaudouet (Europe)  
CETIM  
Boite Postale No 67  
60304 Senlis, Cedex, France

or to

Dr. T. Cruse  
Pratt and Whitney Aircraft  
East Hartford, Conn. 06108, U.S.A.
