

## **Announcement**

### Meeting Notice

### Advanced Software in Robotics

May 4–6, 1983

organized in Liège (Palais des Congrès)

The Association des Ingénieurs Electriciens sortis de l'Institut Montefiore (A.I.M.) has organized the meeting to be held in Liège at the Palais des Congrès.

Communications are asked for on the following topics:

1. Control language
2. Data acquisition in processing software
3. Artificial intelligence software
4. Software reliability
5. Kinematics and dynamics modelling
6. Adaptive control
7. High level languages
8. Distributed processing
9. Computing aspects of sensing devices
10. Interfacing with the environment.

For further information, please contact

M. L. Craisse  
Secrétaire administratif de l'A.I.M.  
rue Saint-Gilles 31, B-4000 Liège, Belgium  
Tél.: (041) 32.29.46

## Announcement

### Mini-Symposium on Advances in Grid Generation

June 20–22, 1983

The ASME fluids engineering conference will be held in Houston, Texas, June 20–22, 1983. The mini-symposium is organized by the Fluid Mechanics Committee of the ASME Fluids Engineering Division.

Papers will be selected for presentation based upon reviews of an extended abstract of at least 1000 words, typed double-spaced, stating clearly the purpose, results, and conclusions of the work, with supporting figures. *Four copies of the abstracts should be submitted to Professor K. N. Ghia at the address listed below.*

The deadlines for the conference papers are as follows:

Submission of abstracts: December 3, 1982.

Acceptance of papers: January 21, 1983.

Author-prepared camera-ready mats: March 18, 1983.

Papers selected for presentation will be published in a single volume available at the meeting.

Inquiries regarding the mini-symposium should be addressed to

Professor K. N. Ghia, Mail Location #70  
Dept. of Aerospace Engineering & Applied Mechanics  
University of Cincinnati  
Cincinnati, Ohio 45221  
Tel.: (513) 475-3243
