

Announcement

Fourth International Conference on Boundary and Interior Layers Computational and Asymptotic Methods, BAIL IV

Novosibirsk, USSR, July 7-11, 1986

The following topics are intended for discussion at this Conference: stiff systems of ordinary differential equations; and asymptotic and numerical methods for problems on boundary layers.

The dates of the BAIL IV Conference have been coordinated with those of the 10th International Conference on Numerical Methods in Fluid Dynamics, June 23-27, 1986, in Beijing.

Three copies of abstracts of contributed papers (at most one page in length) should be submitted by September 1, 1985 to:

BAIL Secretariat
