PREFACE

The conference was held as one of the satellite meetings of the 12th International Conference on Macrocyclic Chemistry, July 20-23, 1987, in Hiroshima. Many chemists in Tokyo Metropolitan area wanted to have their own presymposium in Tokyo, as a large number of distinguished chemists from overseas announced their presence in Hiroshima, which is unfortunately as far as 900 km west of Tokyo. The conference was organized voluntarily by the Japan Society of Young Coordination Chemists, and supported by the Chemical Society of Japan and her Kantoh Region Branch. The venue was kindly offered by the National Science Museum. Participants of the conference amounted to ca. 200 from eleven countries, including ca. 70 students.

This proceedings contains three of seven plenary lectures, and thirteen selected general papers out of twenty-one oral and sixty-eight poster papers presented. Twenty extended abstaracts are also included.
