The accuracy of any instructions, formulae and drug doses should be independently verified with primary sources. The publisher shall not be liable for any loss, actions, claims, proceedings, demand or costs or damages whatsoever or howsoever caused arising directly or indirectly in connection with or arising out of the use of this material.

## ERRATA

Readers of Volume 12, No. 3 may have noticed a duplication of information in two articles by Singh, Kapoor and Mannan.

The authors had reorganized a previously submitted manuscript into two manuscripts, which were eventually published in Volume 12, No. 3 (1994), on page 113 ("Nitrophenates of Transition Metals, Part I"), and page 123 ("Nitrophenates of Transition Metals, Part II").

The earlier manuscript was inadvertently printed in the same issue, on page 141 ("Preparation and Characterization of Nitrophenates of Transition Metals"). For this reason it replicates some of the information in the paper on p. 113.

JOEM regrets this error.
