

CORRIGENDUM

Direct numerical simulations of supercritical fluid mixing layers applied to
heptane–nitrogen

Owing to a printing error, figures 8, 9(*a*) and 9(*b*) are the same. Figure 8 is correct and the correct version of figure 9 is printed overleaf.

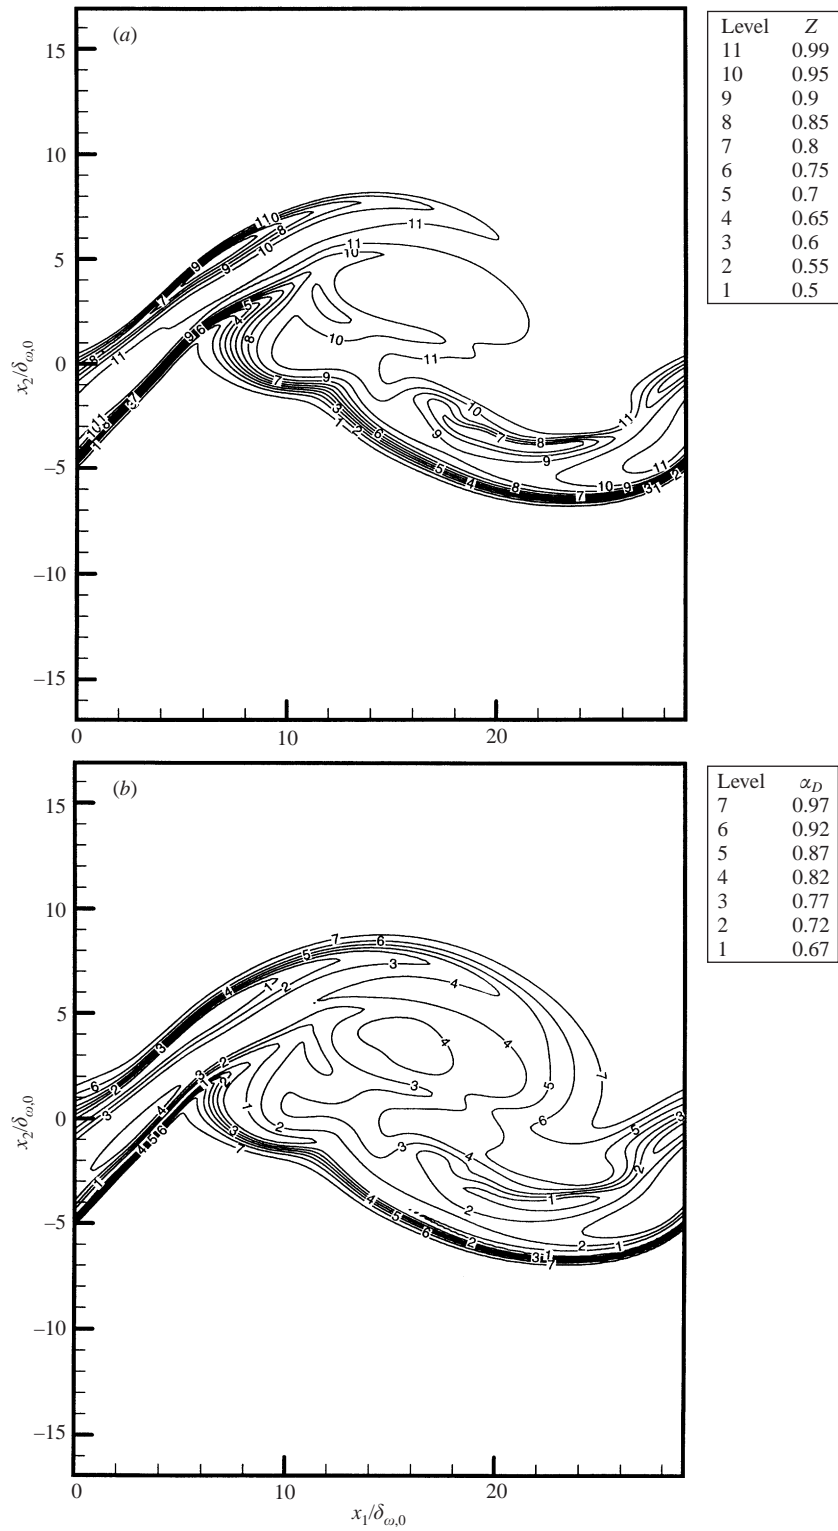

FIGURE 9 (corrected). The compression factor (a) and the mass diffusion factor (b) in the braid plane at the non-dimensional time $t\Delta U_0/\delta_{\omega,0} = 100$.
