

ACKNOWLEDGEMENTS

We express immense appreciation for the support of this conference from the following organisations:

Office of Naval Research Global

Office of Naval Research

The Chairmen would like to express great thanks to *Tom Swean*, of the Office of Naval Research, and also *Chuck Calvano* and *James DeCorpo* of the Office of Naval Research Global for their involvement and support in this conference. Especial thanks are due to Tom Swean, who has supported all four of the BBVIV series of conferences, 1998–2005.

The Chairmen would also like to thank very much the cheerful and extremely efficient help of *Tim Morse* (Cornell University) in setting up the conference academic web site. Many thanks both to Tim and to *Matt Horowitz* for their work in preparing the Proceedings, and indeed for their work in running the audio-visual equipment at the conference.

The Chairmen are truly fortunate to have teamed up with the superb *Heliotopos Conferences* team, and it has been a distinct pleasure to have worked with *Maria Liatsou*, *Alexandra Papageorgiou*, and *Anna Dorovata*. They did a most wonderful job, and we hope to see them again at a future event in Greece, hopefully Corfu 2007.

Finally, we have also been very grateful for the wonderful Scientific Committee, and it is marvellous to have welcomed many of you in Santorini at the event. Especial thanks are due to *Don Rockwell*, our friend and colleague from Lehigh University, for his abundant help in the early stages.
