MEETING NOTICE

**THIRD INTERNATIONAL SYMPOSIUM ON
HORMONE AND VETERINARY DRUG RESIDUE ANALYSIS**

**Bruges, Belgium,
June 2-5, 1998**

The above symposium will cover the following topics : sample pretreatment, extraction and clean-up procedures in residue analysis ; analysis of residues of hormones and veterinary drugs : chromatographic techniques (high performance liquid chromatography, capillary gas chromatography, thin layer chromatography, etc.) and their detection by spectroscopic (UV, IR, MS, luminescence, etc.), electrochemical and other methods (FID, ECD, etc.) ; immunoaffinity techniques and immunoassays including dipstick technology ; electromigration methods ; other techniques applied to hormone and veterinary drug residue analysis in biosamples of human and animal origin ; metabolism, pharmacokinetics and toxicology of these compounds ; technical and medicinal aspects of aquaculture ; quality control and reference materials ; stability of residues in food of animal origin ; legal aspects and control mechanisms regarding residues of veterinary drugs in food ; problems concerning consumption of meat originating from hormone treated animals with regard to doping analysis.

Oral communications and posters must be presented in English. No simultaneous translation will be provided. The deadline for receipt of abstracts is February 1, 1998.

Information : Prof. C. Van Peteghem, Symposium Chairman, Faculty of Pharmaceutical Sciences, University of Ghent, Harelbekestraat 72, B-9000 Ghent, Belgium
