## The Society for Industrial Microbiology

is pleased to announce

The Second International Conference on the Biotechnology of Microbial Products:  
Novel Pharmacological and Agrobiological Activities

Dedicated to the Memory of Professor Kei Arima

*October 14-17 1990, Sarasota, Florida*

This second conference on nonantiinfective biological activities of microbial products and their applications in medicine and agriculture will be a forum for communication of the latest discoveries and advances in this exciting and diverse research field. The guest speakers will be members of the international microbial biotechnology community who have been directly involved in the discovery and application of bioactive microbial products. This conference will be dedicated to the memory of the

late Professor Kei Arima whose many discoveries of novel metabolites and their industrial applications are well known and recognized throughout the world.

Plan now to attend and be part of the many lectures, discussions and poster presentations in the areas of the biochemistry and application of bioactive products, and the physiology, metabolism and molecular genetics of producing microorganisms.

**Program:** The Plenary Lecture Session and Poster Session will include the following:

- Screening for Natural Products
- Novel Metabolites
- Receptor Antagonists
- Fungicides
- Pesticides
- Inoculants
- Antiviral Agents
- Antiparasitic Agents
- Enzyme Inhibitors
- Immunomodulating Agents

**Banquet Guest Speaker:**

Dr. Julian Davies (Pasteur Institute)

**Program Co-Chairs:**

A. Demain (Massachusetts Institute of Technology), and  
G. Somkuti (U.S. Dept. Agriculture-ERRC)

**Program Committee:**

T. Beppu (University of Tokyo)  
R. Cooper (Sterling Research)  
P. Fernandes (Bristol-Myers-Squibb)  
R. Hamill (Lilly Research Laboratories)  
W. Maiese (Lederle Laboratories)

R. Monaghan (Merck Company)  
S. Omura (Kitasato University)  
L. Nisbet (Xenova)
