NEW SYMPOSIUM SERIES

A symposium on advances in thin-layer chromatography and high-performance liquid chromatography was held in Szeged, Hungary, at the Biological Research Center, May 14-15, 1981, and was sponsored by the Hungarian Academy of Sciences. Four scientist from the U.S.A., ten from Hungary and three from the U.S.S.R. participated at the Symposium.

At the close of this meeting it was decided to expand the symposium to include scientists from other countries and the increase the number of participants. It was also decided to make the symposium a yearly event. The next symposium is scheduled for June 16-17, 1982 in Szeged, Hungary.
