The Book Corner

The Merck Index: An Encyclopedia of Chemicals, Drugs, and Biologicals, 14th Edition. Merck/John Wiley & Sons, Inc., Hoboken, New Jersey, USA. 2564 pp.; October, 2006, US\$125.00. ISBN: 0-911910-00-X

This latest version of the world renowned reference manual, as with its predecessors, is still a “must have” for all who use and work with chemicals, pharmaceuticals, and biologicals. It now includes more than 10,000 monographs, 32 supplemental tables, and 450 named reactions. The information in this monumental volume represents concise compound activities, therapeutic and commercial applications, chemical structures, CAS Registry numbers, common and generic names, physical properties, toxicity data, and U.S. regulatory information.

A companion CD-ROM is included which contains the complete contents of the 14th Edition, plus nearly 1000 monographs archived from previous editions. Information may be found by searching for keywords, references, and numerical properties; a one-year subscription to the Merck Index Internet Edition is included. Also on the CD, are supplemental tables that offer acronyms, vaccines, and physical constants.

The Merck Index belongs in the hands of every laboratory scientist. To work without this volume is to “do it the hard way”!!

Table of Contents

1. Monographs
2. Supplemental Tables
3. Organic Name Reactions
4. CAS Registry Number Index
5. Therapeutic Category and Biological Activity Index
6. Formula Index
7. Name Index
