ANNOUNCEMENT

Prep'2009 22nd International Symposium, Exhibit, and Workshops on Preparative/Process Chromatography

July 19–22, 2009
Loews Philadelphia Hotel

Solve Today's Practical Problems and Prepare for the Future of Prep Chromatography

- Find solutions to practical chromatographic separations
- Optimize chromatographic processes for economic production
- Discuss future challenges for manufacturers and media & equipment suppliers
- *See how the latest products and technologies are driving the pace of innovation in scientific research*

The Prep'2009 program will offer the opportunity to present, discuss, and explore the latest advances in preparative chromatographic separations, along with ample opportunities for professional training. The Symposium brings together industry, vendors, academics, and government to share the cutting edge advances in the field through lectures, poster sessions, vendor workshops, panel discussions, and an extensive vendor exhibit.

Two all-day workshops on Sunday preceding the conference will provide a better understanding of the fundamental and practical issues involved in the design of prep systems and training tools needed to apply chromatographic technologies to industrial manufacturing.

Workshop #1: Preparative Chromatography for Small Molecules;
Workshop #2: Preparative Chromatography for Biomolecules.

Further details may be obtained from Janet Cunningham, Prep'2009 Symposium Manager, Barr Enterprises, Tel: 301-668-6001, Fax: 301-668-4312; <http://www.prepsymposium.org>
