**Symposium of the Polymer Division of the Royal
Australian Chemical Institute**

INTRODUCTION

The Polymer Division of the Royal Australian Chemical Institute holds national symposia at approximately 18 month intervals. It has been customary to invite an eminent overseas polymer scientist to be the guest speaker at these symposia and this year Professor P. J. Flory accepted the division's invitation to visit Australia to address the national symposium and gatherings in other centers around the country.

Some of the wide range of papers presented at the symposium, held at Mildura, Victoria, November 17-20, 1971, are published in this issue of the Journal of Macromolecular Science—Chemistry.
