This article may be used for research, teaching and private study purposes. Any substantial or systematic reproduction, re-distribution, re-selling, loan or sub-licensing, systematic supply or distribution in any form to anyone is expressly forbidden.

The publisher does not give any warranty express or implied or make any representation that the contents will be complete or accurate or up to date. The accuracy of any instructions, formulae and drug doses should be independently verified with primary sources. The publisher shall not be liable for any loss, actions, claims, proceedings, demand or costs or damages whatsoever or howsoever caused arising directly or indirectly in connection with or arising out of the use of this material.

## Note to Editor

Recently I have come across an article published in Journal of Macromolecular Science-Chemistry, A19(3), 321-330 (1983), entitled "Unperturbed Dimensions of Polymer Molecules from Viscosity Measurements in Different Solvents" by S. Lenka, P. L. Nayak, and M. Dash. I was surprised to see that the article is almost a copy of one of my published papers:

"Unperturbed Dimensions of Polymer Molecules from Viscosity Measurements in Different Solvents," P. C. Deb and S. R. Chatterjee, J. Indian Chem. Soc., 46(5), 468 (1969).

No reference to our work is made in the Lenka et al. publication.
